Build for less!**

**Take advantage of the
soft-season savings!**

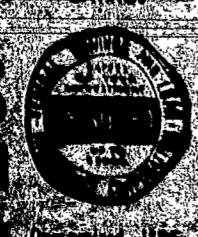

You can build during the winter months and save
time instead of construction work while building
now, saving you the same rugged construction
cost in any other season. So why not take advantage of these modern methods and build the home
you always wanted? Winter is the slack season
for building credits. You can be assured that more
money will be spent on your job by unskilled workers,
which will be an all-around better job that will
last you for years to come.

BUT...
You're not ready yet
START SAVING
FOR THAT HOME OF YOUR OWN

It's time to start putting more "heat" into every
new home. The "Profit Plan" for saving gives
you 100% home interest held plus FEDERAL
tax credits. At little as \$1 open an account
and \$1000 month put away regularly in your
savings plan will be an
average of 3 1/4%
interest on your available
balance each month.

NewsWriter Says Lefts Color News

**Correspondent Who Was
In Spain Four Years
Gives Facts**

NEW YORK — His success in
outwitting the rigid censorship set
up by the leftist Government in
Madrid was responsible for his
having to leave Spain after he had
been warned that "an accident was
looking for him." Mr. Edward
Knoblauch, who covered Madrid for
four years for a leading general
news agency, reveals in his book,
"Correspondent in Spain," just pub-
lished by the firm of Sherr-
er & Company.

The book, containing about 30,000
words, reproduces 100 photographs
and illustrations contained in Mr.
Knoblauch's well-known series of anti-
fascist newsreels. It covers the period
which was syndicated to the Catholic
Press by the N. C. W. C. News
Service. It has been printed in
American and British editions.

The author discusses in the
CATHOLIC COURIER:

"The Spanish situation is very
grave. People are very worried about
the possibility of having revolution and
therefore it is very difficult to get
information. What we have is what
comes from the government."

"The government orders," he
writes, "are beginning striking
from one day to another. Qualifying
orders are the government's
method of controlling the go-
vernment. It is a very bad thing."

The correspondent underlines
that there is no real control over
their own responsibility any
government action, no matter how
unreasonable it might be.

"There is no real control over
the government's actions, because
the government is not controlled by
anyone. It is controlled by the
people who are in power."

"The government's actions are
not controlled by anyone. They are
controlled by the people who are in
power."
