**W**ELL KNOWN as a home of culture and learning, the City of Ithaca is no less well known for its thriving commercial life and solid civic enterprise. Unique in the number and caliber of its institutions of learning, which include great Cornell University, Ithaca College, a preparatory school, a business school, and unexcelled primary schools, this city is exemplary of all that seems most typical of American community life at its best. Facilities of business, transportation, recreation, sports, and culture endow Ithaca with attractions of modernity which enhance the natural beauties surrounding it.

ABOVE—A view of Lake Cayuga, one of the best known of the famous Finger Lakes, immortalized in the alma mater song of Cornell University in Ithaca.

## The Development

Gas was first supplied to residents in 1853 while the distribution of electricity of the incandescent lamp by Thomas Edison.

During the intervening period Ithaca and many important developments are being realized in keeping pace with the progress of the world. We have endeavored to maintain adequate facilities to keep its service in line with the best standards.

Widespread use of these two services is increasing requirements for improved facilities. We have endeavored to keep its service in line with the best standards. We shall in the future continue to improve Ithaca's progress.
