IN ONE EAR

By ART KELLY

Column time again. Very often it is hard to figure out just what type of news is of most interest to CATHOLIC COURIER readers. This week the column is made up of little notes on happenings in general around WHAM and the National Broadcasting Company. If in reading over these releases any questions, regarding radio, suggest themselves—send them in to WHAM. If possible, they will be answered in future issues of "In One Ear."

Starting June 28, WHAM will have a new remote night spot from, which to broadcast The Sagamore Hotel will be the new site and the music will be under the direction of WHAM's popular pianist, Bob Hemings With Bob at the piano, the dancing public will find a real treat After working with Bob on many, many programs, we of WHAM know just what the piano wizard can do.

A few days ago Dick Brown of WHAM's continuity department was pounding out a few reams of copy for a program. Despite the fact that Dick was working at top speed, he couldn't figure out the excessive heat. His question was answered by a hot yellow flame from a burning waste basket singeing his coattails. Dick insists he wrote an exceptionally hot program that day.

Pete and Joe," the early morning risers on WHAM, have real fans. Last week a family drove to Rochester from Hartford, Conn., just to sit in on their hillbilly program.

Television, long awaited by the American public, soon will function for visitors to the NBC Radio City studios A television exhibition will augment the guide tours through the NBC studios, which in the past four and one-half years have attracted more than 2,500,000 tourists.

Don Ameche, of the Chase and Sanborn program, leaves July 6 on the Queen Mary for his first European jaunt.

If a station programs music a certain class wants drama If you schedule drama, the musical class wants its preference

Everyone, that is most everyone, will agree that radio has increased music appreciation in America to a marked degree. There are, however, thousands who are still vehement in claiming that they don't like music, they don't like music appreciation hours and they don't like anyone who likes music.

To meet this situation, NBC now presents a strictly non-educational program to be known as "Music Is My Handicap" It's all in fun, of course "Doctor" Ernie Watson will be in charge of the program over the Red net at 6 30 on Monday nights

The Catholic Hour an outstanding weekly feature of the NBC for the past eight years is now being heard each Sunday in the far-off Hawaiian Islands The first broadcast in the Islands was presented on Easter Sunday as a special feature over KGU, NBC Honolulu affiliate Listeners were so impressed with the presentation that a petition was sent to the National Broadcasting Company requesting the broadcast as a regular offering

Jack Lee of WHAM returned last week from a two-week trip down to Florida. One thousand miles in two days was the best he could do in the way of traveling. His coat of tan is the envy of the entire WHAM staff

WHAM staffers have approved a new plan to establish a sick fund A yearly donation of one dollar from each staffer is expected to take care of sending flowers to staff members when ever there is a death in the immediate family or whenever a staff member is on the sick list.

One of the favorite toys in the WHAM Control Room is the beat-oscillator. Actually used for very serious business, the oscillator is frequently brought forward to amuse visitors. Capable of producing a sound ranging from ten to eighteen thousand cycles per second, the oscillator is used to test the hearing range of the visitors. It goes without saying that the person having the best range struts out of the control room proud in his new accomplishment.

If during the "Lights Out" horror series you wondered just how in the world it was possible to produce such realistic sound effects, here is the secret. Crushing a man's skull is accomplished by sinking a mallet into a melon. A wad of cellophane crushed in your hand sounds just like a raging fire. Lead shot rolling on a bass drum makes a swell synthetic ocean. Then there are the countless sound-effect transcriptions used by radio stations. Nearly 1,000 discs, recording about 4,000 sounds, are on file at NBC alone. Add to that the variations obtained by running the discs faster or slower than normal speed, or by running several simultaneously and the number possible nears the infinite.

St. Peter Celestine is the patron saint of bookbinders His feast is on May 19.

ST. ANTHONY'S WIN

Title in C. Y. O. Grammar League

In a well played game, St Anthony's came from behind to defeat a strong and fighting St. Stanislaus team, 6-5, for the championship of the C. Y. O. Grammar School Baseball League.

The game was a thriller and wasn't decided until the final out with St. Stanislaus threatening by placing men on base in the final two innings, but unable to push across the tieing run.

The new city champions thus completed a highly successful season by coming through undefeated. Vic Scarpulla pitched all of his team's victories, aided by good hitting

Congratulations are in order for Joe Triano, capable St Anthony's coach and his strong team, for their successful season in the C Y O. Grammar School's second year of softball activity

Pilgrims Pray For Ban On Meeting of Godless

DUBLIN, (NC)- The pilgrimages to the Shrine of Our Lady of Knock are continuing in unbroken succession.

One of the most impressive was led by two Holy Ghost Fathers with the avowed intention of praying that the godless meeting, announced for London in September, might be prevented.

TO OUR GRADUATES

Before you leave, we want you all to know
How much we're going to miss each one of you
The cheery way you've all gone smiling through
These past eight years, we hate to see you go.

You've been such friends to all of us. Forget?
We never shall! You'll always hold a place
Within our hearts that time cannot erase;
Our knowing you, we never shall regret.

"Farewell" to you! We shall not say "Goodbye."
Our memories of you will linger on;
In spirit, you'll be here to spur us on
To follow you. Your loyal way we'll try.

Farewell, dear Friends. Now as you graduate
We pray, "God keep you, Class of '38!"

CENTRAL TRUST COMPANY 150 1838 1938 ROCHESTER, N.Y.

"HAEC OLIM MEMINISSE JUVABIT"

ANNIVERSARIES are delightful occasions. At least, the officers, directors, and staff of the Central Trust Company found it's fiftieth birthday to be so, and they wish to acknowledge gratefully the hundreds of expressions of congratulations and good wishes which have come to them. As the old Romans used to say, "Haec olim meminisse juvabit... it will be pleasant to look back on them in the future."

But if an anniversary is an occasion for pointing with pride to the past, it is also a time for looking forward. As to the future of the Central Trust Company, we shall not predict; we'll merely promise ...a continued adherence to the sound, conservative banking principles responsible for our past growth and prosperity and continued efforts to be of every possible service to our clientele and our community... for our second fifty years...and longer.
