IN ONE EAR

By ART KELLY

"Here's your E-S-S-O Esso Reporter with last minute news direct from the wires of United Press." If you spend much time listening to WHAM that phrase must be very familiar to you for it serves to introduce WHAM's Esso Reporters four times daily—seven days a week.

It was on July 1 that "Your Esso Reporters" celebrated their first anniversary on WHAM That afternoon I was talking to Tom Murray and Al Sisson, the reporters. During the course of the conversation it was suggested that we figure out just what one year of news reporting stood for in stories, lines and words. After a few minutes, Tom looked up from his paper and called the following figures. Each ten minute news spot averages eighteen stories Each story averages ten lines with ten words to the line Believe it or not in the past year Tom and Al have spoken approximately two million six hundred twenty thousand eight hundred words Strangely enough when both boys were young they firmly believed in the old saying that "boys should be seen and not heard"

Radio as we know it is a medium of entertainment We often chide stations for their programs and more often we criticize entertainers for their efforts Often in speaking with friends I have heard the remark "Why do stations broadcast those brief announcements?" Why can't we have all entertainment without the advertising. The answer is really simple Many programs broadcast during the course of a radio day are presented by the stations without remuneration They are just entertainment

Since it costs money real money, to run a station, it is necessary to make money If the radio public is to continue enjoying the many fine radio programs available today it is necessary for the stations presenting the programs to find money to continue financing the daily schedule A radio station makes money by selling time on the air to commercial clients The clients in turn use their radio time to sell their own products Since many businesses cannot afford to sponsor quarter half or full hour programs it is necessary for them to buy time in smaller lots therefore the brief announcements The only payment a radio station or an advertiser asks the listener to extend for the privilege of tuning in on their programs is the courtesy of listening to the message the sponsor associates with the entertainment Small pay indeed for the greatest entertainment under the sun

Are you busy on Monday evenings from 6:00 to 6:30 p. m.? If not, sit down next Monday evening and tune in WHAM At that time each week is presented an outstanding program titled "Jimmy Valentine" A dramatic serial the program tells of the life of a man who has been released from prison Much has been said of this situation but here you may hear an interesting account of the difficulties and hardships that Jimmy suffered before finding his way back to a place of respect in the eyes of society The role of Jimmy Valentine is played by the well known movie actor—James Meighan

Hear ye ye jitterbugs and 'gators A new program is on the NBC-Blue Network each Tuesday evening dedicated to all lovers of swing-time music The new weekly program is titled "Dancetime" and features the music of Joe Usifer's Orchestra By his own confession Usifer's no long haired musician yet he is the saxophonist drafted by Maestro Arturo Toscanini to play the solo in Mousorgsky's Pictures at an Exhibition" during the NBC Symphony Orchestra season. He is the newest and most respected arranger of swing tunes, yet one of the featured numbers of his series is his own arrangement of Grieg's "In the Hall of the Mountain King" Lillian Lawrence is the featured vocalist.

Yes indeed the plans of mice and men often go astray Bill Rogers, WHAM's early bird, traded announcing tricks on the Fourth of July just so he could sleep until late in the morning Everything worked out as planned except Bill couldn't sleep

Precaution and forethought are two fundamental principals of radio broadcasting. No one on WHAM's staff realizes this better than Ken Gardner Chief of the Control Room Even though three separate telephone circuits are used to connect the studios with the transmitter at Victor, Ken still couldn't feel easy about their reliability for carrying programs from the studios to the broadcasting station Not one to worry long, he soon devised installed and tested an alarm system that protects the private circuits during the night when no trouble could develop without the knowledge of the technical staff. If for instance a car should skid off the road and knock over a telephone pole thus tearing down the lines and putting WHAM off the air an alarm would sound in telephone headquarters and call attention to the accident.

SACRAMENTS GOD'S METHOD OF WRITING

'On Soul' Declares Bishop Hunt

NEW YORK "If it is natural for a man to put his prayers in an outward form and we know that it is it is but natural for him also to look for an answer to them Likewise identified with an outward form," said the Most Rev Duane G Hunt Bishop of Salt Lake, in his address Sunday night over the "Catholic Hour"

Speaking on the "Sacraments of the Church" Bishop Hunt described the purpose of and the part played by ceremonies in the sacraments Of ceremonies of themselves, he said that is such just verdict is that they are not adequate The motives which underlie them may be commendable and the human results efficacious which they display is amazing he added But the results are not satisfactory Man cannot devise a ceremony that perfectly expresses the worship of God

It should be evident he continued that no matter how ingenious man may be in devising ceremonies, he is utterly helpless to make them anything more than ceremonies To some extent he can find symbols of God's grace but he cannot put God's grace into them Man prays to God for help not for the mere appearance of help He asks for and needs an answer not the symbol of an answer He is to be saved by God's grace not by the sign of grace

Employs An Analogy

Bishop Hunt employed an analogy to show that the ceremonies are more than mere superficial forms or symbols forms without substance Suppose that you write a letter he said There is a three fold cooperation of you the pen and the paper You of course are the author of the letter But both pen and paper also are necessary And each must be under your control The pen must be guided by your mind and hand otherwise it can write nothing The paper likewise must be open to you If it is buried under books, or if it is soiled it cannot be written on

For yourself substitute God for the pen put the Sacraments and for the paper put the human soul Predestined by God to write a message on the soul given the necessary sanctifying grace God is then ready to write His message He is free he it noted furthermore to choose His methods and He chose the Sacraments To be useful the Sacrament must be under His control otherwise it is a mere outward sign And the human soul must be open to God If there are obstacles between soul and Him it is like ink in the carpenter's pen it cannot receive His writing

Can Over Stress Functions

Do not over stress the importance of Sacraments the priest must be more than Bishop Hunt declared that God should be suggested for the grace required Of course there are discussions he asserted And this is why the confessional is necessary for instance he went on that if the Sacrament is produced through psychological appeal or through impressive symbolism or to regard it as a kind of magic is absolutely wrong That would remove the Sacrament from the realm of religion

Bishop Hunt stated the [illegible] can be overplayed It is sometimes claimed that the soul must approach God and receive the sacraments in the state of grace before it can be of any good to the person The soul must be sufficient unto itself to receive something merely human was to some degree Moreover it disregards the plan of God After all He established the Sacraments and commanded that they be used and He does not unnecessarily make it hard to approach His throne of grace Rather He invites perfect his dispositions are necessary [illegible] the sacraments [illegible] necessary by the Author of God

Witnesses of Jehovah

By RICHARD FELIX, O.S.B.

Here is the first of several articles from the pen of Father Felix exposing the bigoted and slanderous assaults made by Rutherford and his Witnesses of Jehovah on the Catholic Church. If any of our readers desire literature counteracting this pernicious propaganda and setting forth the claims of the Church in a plain and popular way, we would suggest that they communicate with the Defenders of the Faith, Pilot Grove, Missouri. Among the timely publications of this organization, we would especially recommend "Rutherford Uncovered," "Modern Mohammed," and "An Open Letter to Judge Rutherford." All three of these publications will be sent postage prepaid for 10c.

Few people appreciate the magnitude and maliciousness of the work carried on by Rutherford and his so-called Witnesses of Jehovah. The sect claims fifteen million sympathizers and supporters in this country alone (H R 7986 p. 207)

This is probably a gross exaggeration but when we consider the fact that the Witnesses of Jehovah have disposed of twenty-six million of their vicious books and booklets during the past year it may not be so far from the truth after all

Just how anti-American and anti-Christian is this vast propaganda that seeks to undermine and destroy our only sources of security and civilization religion and stable government will become evident from the following typical excerpts culled from the writings of Judge Rutherford the leader of the sect

Religion

"Religion is the deceptive and subtle scheme of Satan the Devil and was brought forward and employed by the Devil to deceive men and to reproach Jehovah God" (CURE p 12)

"Religion shall end forever and that within a short time." (CURE p 27)

The practice of religion has proved beyond all doubt that it is a racket of the very worst kind" (CURE p 9)

Religion is an integral part of Satan's organization" (RICHES 3,125,000 Edition, p 95)

Government

The ruling powers have become more selfish and oppressive of mankind Jehovah will see to it that such powers as now dominate mankind shall no longer endure." (CURE First printing, 10,000,000 copies p 27)

Often a young man who is simple yields to the seductive influence of an enticing harlot who sings songs and exhibits herself in public places The United States appears to be in the class of such simpletons." (ENEMIES First printing, 1,000,000 copies p 278)

"No honest man understanding the conditions in the United States can claim that it is a satisfactory government" (GOVERNMENT, 2, 437,500 Edition p 13)

"The United States and Britain form the chief part of the realm called Christendom but in fact Satan is their invisible ruler and god." (Quoted in H R 7986, p 183)

The politicians from Roosevelt down are not the least bit concerned about Almighty God" (CONSOLATION, No. 471, p. 20)

Protestantism

"The record of Protestantism is that if inquisition, persecution of the true followers of Christ Jesus, and prosecution of cruel wars of conquest dabbling in the political affairs of the nations, and of teaching and practicing false doctrines that are defamatory of the name of Jehovah God and of Christ Jesus Its leaders are ignorant of God's organization, have substituted man-made theories and practices for the Word of God, and have turned millions of professed Protestants into ignorance and superstition." (CURE p. 8)

The Jewish Religion

"The Jews' religion holds out no hope for mankind" (CURE, p 11)

"The Roman Catholic hierarchy the Protestant clergy, and the Jewish rabbis walk hand in hand, participate in the politics of the world support wicked and selfish organizations that oppress the people and persecute everyone who dares to tell the truth of and concerning God's kingdom" (WHO SHALL RULE THE WORLD? p. 24.)

The Press

"Today the public press is the tool of the heartless commercial and political rulers and it publishes the very opposite of the truth" (WHO SHALL RULE THE WORLD? p. 50.)

"If the Associated Press had been in existence in the days of Jesus Christ, it would have been against Him." (GOLDEN AGE Dec 30 1936, p. 196.)

Business

"The Federal Reserve racket is one of the most powerful in the world" (CONSOLATION, Jan. 26, 1938, p 16)

"Every branch of government is contaminated by big business. It controls the army and navy, the guns and ammunition, and the police power of the nation." (H. R. 1986, p 10)
