THE LISTENIN' POST

By AL SISSON

"Undaunted—Info Please Sails On"

Information Please, sensational radio program which won success on the theory that the public loved to "stump the experts," began its commercially sponsored series for Canada Dry Ginger Ale on Tuesday of this week. The program, a tremendous hit from the moment it was lauched by NBC last May 17, continues in the same pattern without even change in time or network. It is heard over WHAM on Tuesdays, from 8:30 to 9:00 P. M.

The permanent personnel of the program, with witty Clifton Fadiman, literary critic of the New Yorker Magazine, as master of ceremonies, Franklin P. Adams, who conducts the famous newspaper column, "Conning Tower," and John Kieran, sports columnist of the New York Times, as regular members of the board of experts, will remain unchanged. Guest "experts" from all fields will appear with Adams and Kieran each week to form a four-man panel.

Sat in on a "beef" session with Gene Lane the other night and during the course of the evening learned a bit of swell data about a swell guy In case you're in doubt just who Gene is, he's none other than "Hank Hooper" in those Saturday night (7:30 to 8:00) WHAM-Slocum Dramas, "Hank and Herb and the Old Timers" Gene's first stage appearance was made in his first pair of long pants away back in 1907 For three years he trouped with a minstrel show as a boy soprano and when his voice changed, being light of stature, was able to play the part of a jockey with a New York road show for 46 weeks. Then into stock in Milwaukee, Chicago, Duluth, Tulsa, Detroit and Toledo. Played Rochester at the old National Theatre That was in 1904. Remember? Gene spent nine years in vaudeville, three years under the management of Minnie Palmer, mother of the four Marx Brothers. He started in radio at WLS, Chicago, in 1927 with the WLS Showboat and the old Barn Dance. Gene writes all script for "Hank and Herb"

Skinnay Ennis who has been commuting twice weekly between the Bob Hope Show and the Mark Hopkins Hotel in San Francisco, where he is playing, will be able to quit his hectic flying schedule when he begins an engagement at Hollywood's Victor Hugo restaurant, Nov 23 Batoning the Hope Show and appearing at a local eating place will make it easier on Skinnay's time and pocketbook It cost him over $100 a week to make the L A Frisco flying trips

Harry McTigue is back on the air over WHAM after a brief session in the hospital Although Harry is still on crutches, he is on deck every day except Sundays for his 6 30 Sports Review Bill Rogers, Harry's commercial announcer, is now confined to the hospital at this writing with a touch of grip Dick Brown is handling the plum on the Sports Review until Bill returns

The 15-round fight between Henry Armstrong and Ceferino Garcia for the welterweight championship of the world, scheduled to be broadcast over NBC and WHAM Nov 2, but postponed due to a leg injury sustained by Armstrong, will be broadcast on Friday, Nov 25

The fight was to have inaugurated a new series of exclusive NBC broadcasts, covering all championship battles and the matches leading up to them, sponsored by Adam Hat Stores, Inc It will be inaugurated instead tonight (Friday, Nov 18) when the middleweight match between Fred Apostoli and Young Corbitt 3rd is described from the ringside at Madison Square Garden Both fights will be heard over the nation-wide NBC Blue Network beginning at 10:00 P M EST

Sam Taub, veteran boxing commentator and Bill Stern ace NBC sports announcer will bring listeners a complete blow by blow report of the fight

"Did You Know?"

—That Ford Bond, NBC announcer, is a sports expert and a weight worrier? He weighs 200 lbs. Ford also is a real southerner from the mint julep country Football star in Louisville High Earned own way as singer since he was 13. Started medical school but liked music better Joined NBC in 1930

That Dr Frank Black, General Music Director of the National Broadcasting Company is one of the hardest working executives in the Radio industry? He is at his desk in Radio City around 7 45 o'clock every morning and has a large part of his work done before the arrangers, copyists or orchestra men have the notes rubbed out of their eyes.

—That Tom Grierson, WHAM organist, began his musical career in an English Cathedral choir at the age of seven? He was a pupil of Sir Sydney Nicholson, then organist of Westminster Abbey. Tom now has his own "estate" near Rochester and can be dubbed a "Yankee-English Squire."

Looks like "The Listenin' Post" must sign off for now. May you have many pleasant "Radio Hours" 'til we come by again.

SODALTALK

By Margaret Worthington

We are catering to the social graces in Sodality circles these days—or so testify the many schools "of the dawnce" that are being organized amongst us. Holy Rosary Sodality has engaged Marge Foster to instruct an enthusiastic Saturday evening crowd in dancing, while Holy Family sodalists are mastering the popular ballroom glides and slides under the supervision of Gertrude Kendall. Along the same line, we hear that a promising nine-piece orchestra has been recruited among the sodalists at Holy Family.

Deviating from the purposes of the Sodality, you ask? By no means,—merely having our social life in the good company of Our Lady and her sodalists.

• •

Thanksgiving Eve is eagerly awaited by the sodalists and friends of the Immaculate Conception Sodality. It will be the gala occasion of their annual Football Hop when the sodalists will be hostesses to the famous Aquinas eleven, as the guests of honor. Ruth McNamara is general chairman assisted by Dorothy Doyle, Tommy Larkin will be Master of Ceremonies and will introduce the players to their many faithful followers during their brilliant season. Music will be furnished by the Rochesterians amid the proverbial "good time" is bound "to be had by all."

• • •

A Junior Sodality, under the direction of Father Alphonsus Crimmons, has been formed at St. Patrick's Church. It will include the girls from the fifth to the seventh grades of Public School No. 5. Officers are to be elected at their meeting on November 23.

From St. Patrick's, too, comes a speedy answer to SODALTALK'S recent query about recitation of the Little Office of the Immaculate Conception. We quote Prefect Teresa Nacca:

"Our meetings are held on the first Friday of every month and at 7:45 the Sodalists meet in Church—with their Sodality medals on—and recite the Little Office which is followed by Benediction. We then go to our room for the meeting and social."

• • •

"Dear Lord, Jesus, Grant them eternal rest." Sodalists, that is your Character Tower aspiration for the month of November, and attached to it is an indulgence of 100 days. Try to see how many suffering souls you can help win their way to heaven this month by offering the aspiration for them.

Father Roy Murphy, of Holy Family Parish and Director of the Union Apostolic Committee, addressed the Sodalists of St. Monica's Senior Sodality at their November meeting, Monday the 14th. His subject was a thought needing consideration by all of us Sodalists—the example we, as Catholics, are continually setting those outside the Church. "Catholics scandalize by not living the principles they teach"—"Others are continually watching us" are excerpts from Father Morphy's talk which every Sodalist would do well to think about.

• • •

Of course, you've heard that we're going to have a Theatre Party. Chairman Penny Brennan announces that the Sodality Union will go to see that much talked of and very worthwhile play "Shadow and Substance" at the Auditorium Theatre on Tuesday evening, November 29. This was previously announced for Monday, November 28, but now with other arrangements, the regular Sodality Union meeting will not be changed. It will be as usual, the fourth Monday. Reservations for the play must be in Penny's hands not later than Monday, November 21. Come on, Sodalists, we're calmoring for good plays. Now here is one that deserves our patronage.

• • •

Sodalists are reminded to attend Mass on Thanksgiving morning as the only perfect act of thanks for the many favors and gifts they are always receiving. Some Sodalities are considering a general attendance by the Sodality at the special Thanksgiving Day Mass to be said in their parishes.

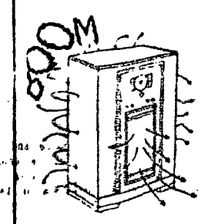
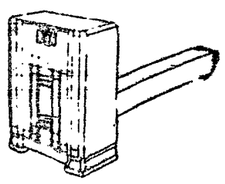
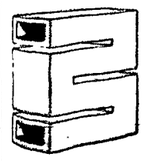
HOW THE LABYRINTH IMPROVES TONE!



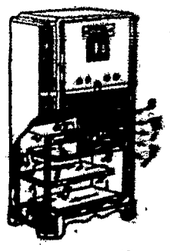
THE TROUBLE — Empty cabinet space in back of the speaker causes "boom" and distorts the pure tone from front of the speaker





THE THEORY MADE PRACTICAL Such a tube is out of the question So Stromberg-Carlson folded this tube into a Labyrinth.

THE THEORY — A long tube of sound absorbent material at the back would absorb the unwanted rounds and reinforce the low bass tones.



THE LABYRINTH—In one of the Stromberg-Carlsons. It is the necessary baffle wrapped up, folded over and placed in the troublesome space in the cabinet. Patented in U. S. A. and Canada.
