Mission Visitor:

Our office was favored thris past week with two visitors from the farthest corners of the World. Father Pancratium, a Benedictine, stopped off for a few hours. He is returning to his mission in Zuluiand, South Africa. Father Pancratius came to this country about seven years ago. He was in very poor health and doctors advised a long rest. Until just recently he was confined in St. Joseph's Hospital. New York City. Ignoring a certain danger to his health, he is about to errabark for the suitry climate of South Africa.

The Most Reverend Bonifaces Baurs, Bishop of Korres, looked Era upon us the other day Returning from the Vatican City, where he had a long interview with Him Holiness, Pope Plus XI, Bishogs Saura is spending as few monthes in the United States He must be back in Korea Before Easter in order to ordain his native somnarians to the Holy Priesthood Bishop Saurs is a renowned figure in Mission work. Thirty years ago he was sont to Kores. to found upper schools. A year after his arrival Kores was annexed by Japan and his educa-tional work collapsed. The lioly See then appointed him Vicar Apostolic of the Province. Al-though well advanced in years this man of God Literally bub-bles over with enthusiam. Other men of his age would be thinkmen of his age world be think-ing of retiring from active serv-ice. Not so, Bishop Saurs. He-is making long-ranged plans to meet with whatever emergencies

In speaking about the future of the Church in Ecres, he insisted upon the need of a native clergy. Their knowledge of their own people, their lamguage, oun-toms, etc., make them better equipped to handle local problems. Above all, the presence of native sons as priests of God impresses the people and impels amongst them a curiosity, at bust to examine the teachings of our holy faith more thoroughly. When questioned about the stability of these yourse men, the

good Bishop answered us that they quickly developed into sin-cere humb's and exorgetic dis-ciples, dedicating their entire life to the evangelizing of the country. The greatest problem in rearing a native clorgy, as Bishop Saura pointed out, is one of A sominary which he constructed was recently burned to the ground. Now make-shift quarters must house the students, and until a new building can be erected, new applicants must be

rejected. Where the money is to come from constitutes a major prob-lem. European countries by reason of governmental embargo, are helpless in a missionary sense. Will American hasten to the rescue? That remains to be seen. Here is a wonderful opportunity; the opportunity of leading an adopted son of Korea to the alter of God. Once his goal has been reacted and he holds in his consecrated hands the Body and Blood of Jesus Christ, it will be his duty to breathe your name over the sacred oblation and seeking from his Master your particular re-

We assured Bishop Saurs upon his departure that we would be happy to remember his needs. It was, not alone discouraging, but, in fact, embarrassing to send him away empty-handed. Circumstances compelled us to do so. In your name we might justify our interest in his work, if, at a later date, we could forward him a contribution. You can help us realize this desire. Your donation addressed to the Office in the Civic Centre, will be welcomed. A man, resembling in appearance a patriarch of old, filled with a desire of making the God-man known to bis adopted Korean, rests upon your charity.
