Let me deal with the interna tional propagandists first: Just what is to se Americanism True Americanism means just two things. First, the recognition of the sovereign, inalienable rights of man and secondly, un qualified opposition to all To-talitarian forms whether they be

He pointed out that true Americanism cannot be at the same time pro-Pascist and pro-Nazi and anti-Communistic. Nor can true Ameri-canism be pro-Communist and at the same time anti-Fascist and anti-Nazi.

"True Americanism," declared Dr. Eastham, "means just two things. First, the recognition of the "vereign indicable rights of whether they be Nazi, Fascist or Communist, which day these rights." Using this standard he cited the

activities of agencies advocating lifting the emphago such as the American League for Peace and 0078CV the Medical Bureau and North American Committee to Aid Spanish Democracy and the Friends of the American Lincoln Brigade. He asked why is it that all these os ganitations have condemned Naziim and Fascilarn, but never bave condemned the third and most insidieus ideology, Comunism. Pastoral on Golden Jubilee Crusade

My dear People :

The month of February has been set aside by the Church as Catholic Press Month. The purpose of this action is to keep before the faithful the necessity of reading Gatholic books and periodicals as a means of keeping in touch with Catholic thought, its oblect, moreover, is to obtain the information on Cathe olic and current events which an intelligent Catholic should have in these days of controversy.

January 25, 1939

The need of a reliable news service has never been so evident as in the recent history of events in Spain. The hopeless collapse of most of the foreign news services as sources of unbiased information has disgusted many of us. The information furnished through the "Catholic Courier," our diocesan paper, has fortunately counteracted much of the propaganda which the American public has been forced to read.

I do not hesitate to say that every need in the matter of reading is now available in our Catholic newspapers, and our Catholic periodicals devoted to cultural and doctrinal subjects, and to the discussion of the economic and social problems of our day.

In our own diocese, may I call your attention to the Golden Jubilee Crusade of the "Catholic Courier" which begins January 29 (today), and extends through Monday, February 13. The successful maintenance of this diocesan paper through fifty years should inspire us now to the development of agreater newspaper for the next half century. That, however, is dependent upon the support of our people, I am, therefore, urging that every Catholic family in the diocese subscribe to the "Catholic Courier." The Courier should be in every home in the diocese, for I am inclined to think that homes which have no
