

educational system "Education for democracy" is in the way of becoming a slogan. Religion's Past Stressed

That the system can be im-

proved, in this respect, is a gen-erally accepted conclusion, but just how it should be improved is an other matter. That it must cultivate the spiritual or ethical side of the individual as well as the material or economic side, is also coming to be accepted. The part that religion plays is the nationa fe of America has been repeatedly-stressed by members of Con-

Now, a special committee of the of New York has made striking and the troubles between England observations in its report, includ-ing these: "The great lack in our homes and in our national life is the lack of true simple religion." "Our religious convictions and feel-ings are more important today than they ever were-and it is vital that in our education they be homored and promulgated, rather than subordinated or excluded." "If this country does not maintain its than they are more important totay were subordinated or excluded." "If the solution is a students registered the solution is a student in the students registered the solution is a student in the students registered the solution is a student in the student is a student is a student is a student in the student is a stud
