Particularly impressive are the number of supporting players who have done much striking pieces of work that they have on occasion over-shadowed the stars. The general excellence of the film fare seems te have inspired screen actors. Cer tainly, it is seldom that there have been such consistently extraordi nary performances by a group of players. Some of the best of these are listed below, as nearly as pos-sible in order of excellence, under their group heading. So, keep it up, movie mak-ers—you're doing splendidly Because of holdovers of "Pinoc-chio" and "Rebecca," there was

only one new picture of any con-sequence. It was "Virginia City" (A-2), a typical Western melo-drama of the old school. In "Virginia City." Errol Flynn and Ran-dolph Scott are noble upstanding heroes; Humphrey Bogart is a nasty, sneering villain and Miriam Hopkins is the woman -one of those early Western glamour girls Given these characters and the benefit of past experience at Western films, any audience ought to be able to call every twist and turn the pilot will take—even to the risevitable last minute rescue.

Flynn and Sectt concentrate on looking handsome and dashing, while Bogart delivers villatious

speeches in an accent which he occasionally forgets to remember Miss Hopkins is, of course, up to the requirements of her role which makes her sort of a Mata Hari of the horsky-tonks. That may sound interesting but it's demands on her are merely that she be able te look at Flynn with repressed adoration, at Scott with sisterly affection and at Bogart with rightsous scorn. It's rather a waste of time for an actress of her ability bargain. And the picture is lively action-filled and well photographed entertaining, even if it is the same

Similar improvements have been made in the popular double hung windows. Double action weatherstrip, noiseless pulleys, and flat weights that allow for narrow, modern lines are a few of the outstanding innovations.

PAINTING PLASTERED WALLS Application of a coat of sizing on a giastered wall surface before painting is a wise procedure. A good preparation for sizing may be made up of varnish thinned with turpentine and colored with a little of the wall paint. Walls may be sized and painted with funds obtained from qualified lending institutions under the Modernisation Credit Plan of the Federal Housing Administration.
