

AUGUST FURNITURE PREVIEW

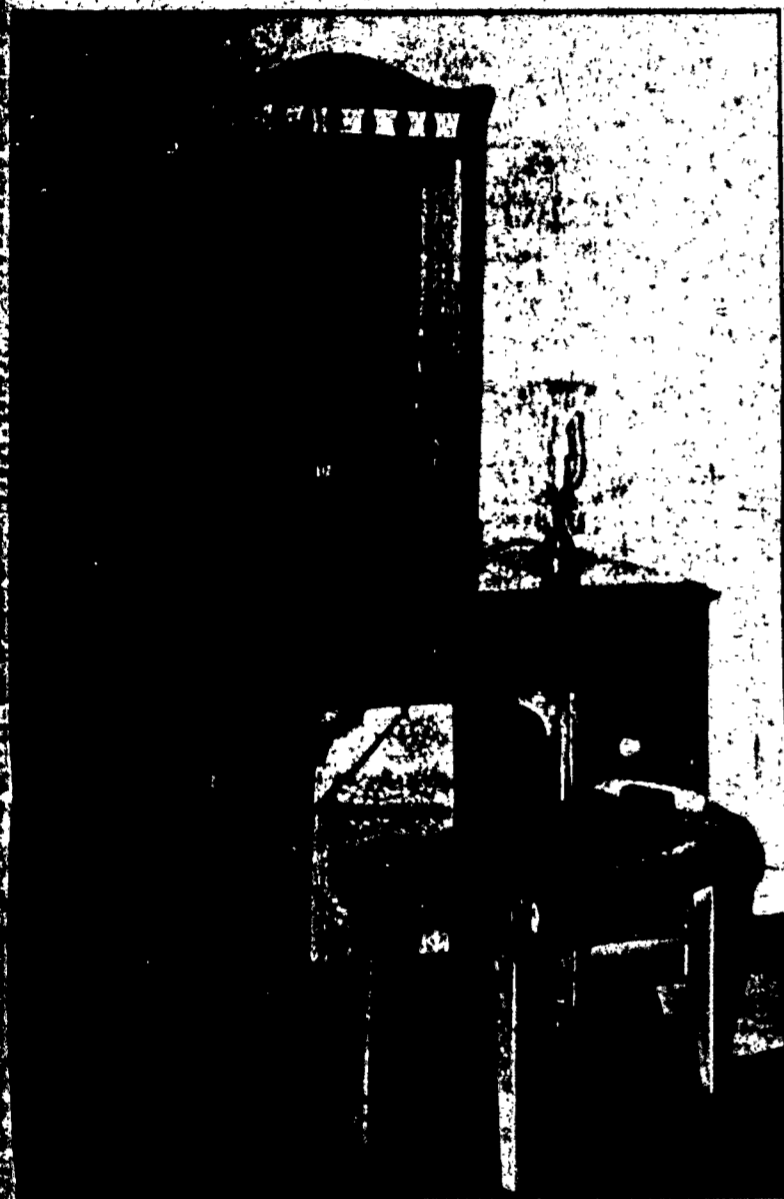

Showing Latest Modes at Sales Event Prices

● **AUGUST IS THE MONTH** when thoughts turn from the out-of-door to plans for making the home more attractive and livable during the Fall and Winter months which lie ahead. Here are a few of the ideas and modes presented by leaders in furniture and home furnishings.

● **SIBLEY LINDSAY & CURR CO.** presents, from among the thousands of items in an outstanding furniture collection, this adaptation of an 18th Century Barrel Chair. The name derives from the marked resemblance of the chair back to a half barrel. All exposed wood surfaces are of solid Honduras mahogany. Springs are hand-tied, and the cushions are filled with feathers and down. The chair bespeaks comfort, grace, and durability. For other features of AUGUST FURNITURE events at this store, see advertisement on Page 3.

● **AUGUST IS THE TIME** and these are the places for previewing the latest offerings in furniture of all periods and all price ranges. Whatever your mood, method, or means, these firms will cooperate in giving you the fullest possible value for your money.

● **E. W. EDWARDS & SON** offer this Early American reproduction from the famous workshops of Consider H. Willett, a name synonymous with the best in furniture of this type. This distinctive set is made of solid hard sugar maple, a wood worthy of outstanding simplicity of design, beauty, and graceful proportions. Construction, styling, and wood combine to assure the utmost in strength and durability. For more about this store's AUGUST FURNITURE presentations, see advertisement on Page 2.

● **UNUSUAL IN TREATMENT** and design is this modernistic bedroom suite which features a novel combination of two contrasting woods. Beautiful Oriental walnut is used to heighten the unique beauty of "zebra" wood. The dressing table is distinguished by a large square mirror scored with a circle. This suite is but one of many outstanding values presented by the **MT. MORRIS FURNITURE CO.** whose advertisement of AUGUST FURNITURE specials appears on Page 5.

● **WEIS & FISHER CO.** suggest this modern grouping as a smart and economical means of bringing new life to some dull spot in your living room. This is just one of many possibilities suggested by the four model rooms of modern furniture on display in this widely-known store. The desk in this photograph is of solid maple bleached in the new "wheat" finish, hand rubbed. The chair is finished in a soft coral leatherette which accentuates the blond finish of the smart lamp in natural bamboo with spun brass base. See advertisement on Page 7.
