HOME PLANNING Fixing Up Roof - Make Chimney Safe Eliminate Skimping - World of Foods

Good Roof Is Not Expensive

New Materials Make Job Easy

The roof is one of the most important parts of the house...

The condition of the roofing material may make its removal desirable...

Waterproofing new roofs is a task of most importance...

In painting the new roofing, care should be taken to avoid cracks...

In repainting with wood preservatives, the material should be applied...

The waterproofing of walls made for roofing purposes is the principal cause of roof failure...

For many years it has been the general practice to build shower stalls on the job...

Some factory-made shower stalls are designed to fit into a space only 30 inches square...

CAREFULLY CONSIDER YOUR TREE PLANTING

A tree is regarded as an object of permanence and therefore should be carefully considered...

Such trees need room to grow and should never be planted too close to the house.

Plan for Plenty of Storage Closets

Every housekeeper knows the importance of having plenty of storage space in her home.

Paint Stripping Wall Relieves Monotony

Stripping the process of running narrow bands of paint around the walls a few inches from each other...

When selecting a lot and developing a house plan, due consideration should be given to sunlight and prevailing breezes.

SUNLIGHT AND WINDS AFFECT HOUSE PLANS

When selecting a lot and developing a house plan, due consideration should be given to sunlight and prevailing breezes.

SKIMPING IN WRONG PLACES OFTEN COSTLY IN LONG RUN

CUTTING COSTS ON FUNDAMENTALS MEANS ENDLESS TROUBLE AND EXPENSE IN YEARS TO COME

CRACKED WALLS—Often caused by uneven settling of footings and foundation.

DRAFTY WINDOWS—Result of poor fitting and cheap construction.

Where is it wise to cut costs in your new home and where is it wise to buy the best?

Replacement by Yachter There is one general principle that can be set down here...

Wider is Wiser It is wiser to wait for more of the attractive furnishings and fixtures...

Different Colors Give Impression of Altered Weight, Painters Say

Painting surfaces with different colors can give many unusual effects but one of the most startling is that of altered weight.

Home Costs Less Than Small Car

The "home-owning" class disappeared between 1935 and 1940. In its place came a class for whom the money is a thing...

HOME INVESTMENT IS ONLY "SURE THING" LEFT

Good investments are exceedingly rare these days. A good home to be occupied by your own family is about the only "sure thing" left.

Small Home Stairway Plan Requires Care

Special consideration should be given by planners of two-story small homes to the specifications for the design of stairways.

Paint Stripping Wall Relieves Monotony

Stripping the process of running narrow bands of paint around the walls a few inches from each other...

When selecting a lot and developing a house plan, due consideration should be given to sunlight and prevailing breezes.

SUNLIGHT AND WINDS AFFECT HOUSE PLANS

When selecting a lot and developing a house plan, due consideration should be given to sunlight and prevailing breezes.

Chimney Can Be Expense

Care Required in Construction

Careful study and expert workmanship are required in the construction of a chimney in either a new house or in an existing structure.

Attempts at "home-made" chimneys should be discouraged. A chimney is like installing electric wiring or plumbing equipment...

Separate Flue Essential To insure the proper functioning of a chimney as a draft, each flue should have its own separate flue and the cross sectional area of flues must be sufficient to adequately serve the fire.

No woodwork should be placed nearer than two inches from any chimney, and where the chimney passes through a floor noncombustible material should be placed between the wood and the masonry as a fire stop.
