Cinema Comments

her long contract and leaves the screen at least for the present. Now, especially of recent years, you may have been bored by the films of Misses Temple more often than you have been amused by them. But just the same, she has been quite a girl. She brought a personality to the screen that won popularity all over the world.

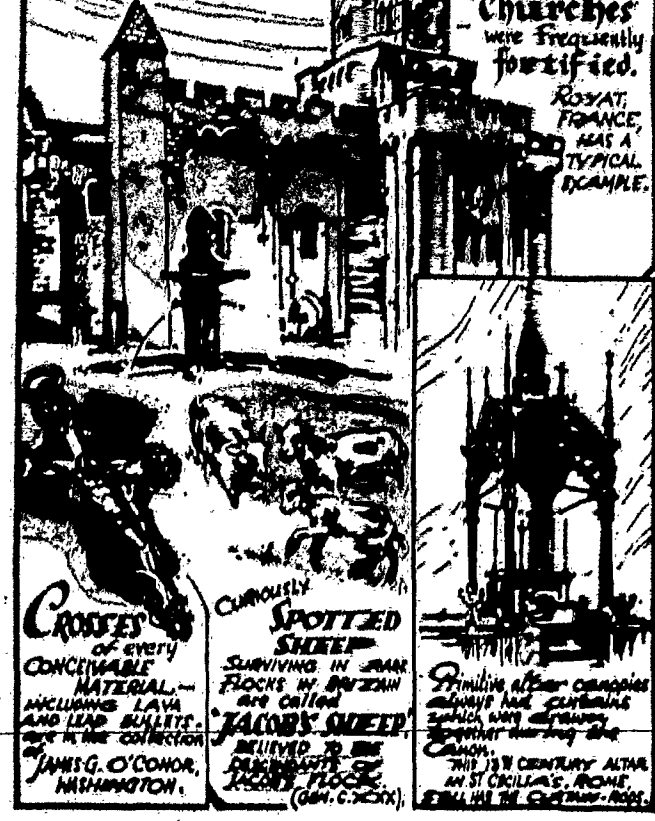

"Young People" is a sad picture though for more reasons than that. It's too bad that they couldn't have thought of anything better for the talented but somewhat naive girl, a really rousing melodrama. This is just a very minor film.

There is nothing more dull and prosaic in real life than any wax museum we have ever seen. But there's no place more sinister and eerie in the museum. Charles Chan is in a wax museum in his latest and there is the regurgitation number of shrieks and ghostly goings-on.

Account Overdrawn
Many of us have had that unfortunate notification from the bank but perhaps for less reason than Bishop Edgar Hearing, O.F.M., Vicar Apostolic of Shanghai.

The flame lighted
It remained for the zealous Catholic layman, Anthony Frederick Ozanam to scale the heights of Protestant indifference to social service and lay the foundation for the establishment of this great St. Vincent de Paul Society.

Mission Intention for Sept. "For Social Work"
In this country where social workers are so scarce, the headline space in the nation's program, it is to be hoped that there will be sympathetic and prayerful interest in the intention recommended by the Holy See for the month of September.

Social Work Must Continue
Today the world is entering upon an entirely new era. Totalitarianism is the order of the day and the long run of the state into every walk of life.

The Perfect Example of Social Service
After the hidden years at Nazareth, Christ the Worker became Christ the Teacher and that teaching included a complete course in social service. Jesus of Nazareth was a member of the human society of His day.

Other Pictures
There is nothing more dull and prosaic in real life than any wax museum we have ever seen. But there's no place more sinister and eerie in the museum.

Living Charity
As the destinies of the Redeemer infiltrated even the most savage of the European tribes, social service became the privilege of king and peasant alike. Charity was a real, a living thing, reaching a climactic peak under the gentle ministrations of St. Vincent de Paul.

According To The Doctor

There is a means for getting air into the lungs of a person after drowning, smothering, gas poisoning and the like—it is artificial respiration, a rather simple procedure and not so complicated as you might imagine.

It is achieved in the following manner: Place the victim face downward, turn the face to one side and bring the hands to a resting place beside the face. Kneel astride the body of the person and place your hands on each side of the back in the region of the lower ribs.
