

*"I Am, Dear Sister,
Gratefully Yours"*

NONE OF US can forget the one nun whose guiding spirit has left a lasting impression on our life. She indeed has earned our eternal gratitude for her work in our behalf.

ANY ATTEMPT to measure the value of her counsel in finite terms is impossible. She kept a vigil for us at the crossroads of life, guiding us down the high road to good citizenship.

ZEAL FOR the souls entrusted to her care was and always will be the driving force behind the sacrifices she makes as generation upon generation passes through her classroom doors.

AS WE review the glorious history of the Sisters of St. Joseph in the past 86 years in the Rochester Diocese, we find in their ranks many counterparts of the ideal nun of our life.

BUSING as testimonials to the noble work of the Sisters of St. Joseph are 53 diocesan institutions including the crowning glory of their educational program -- Nazareth College.

EXPANSION of the sixteen year old College has been so rapid that the time has come when the Sisters must build or turn away students. To you they carry their first appeal for aid.

THEY ASK, not for themselves, but for the girls of this and future generations -- the women who must uphold Christian ideals in the far-flung battles of an uncertain tomorrow.

HELPING these Sisters NOW is your high privilege. You can insure future generations the benefits the Sisters brought you. In this spirit we commit their appeal to your gratitude.
