Leadership in Action

• More than 6 million Frigidaires have been built and sold—an unequalled record that provides overwhelming proof of Frigidaire leadership.

This Frigidaire leadership is an **active** force, constantly seeking to improve the combination of quality, economy and convenience that is Frigidaire. Year after year, Frigidaire leadership forges ahead because it gives buyers the greatest refrigerator dollar-value with the newest achievements as soon as they are developed.

"Leadership in Action" is an obligation Frigidaire has willingly accepted. It has been responsible for a major share of the contributions to home refrigeration. It is assurance to the buyer of a new Frigidaire that he is getting the most for his money.

JUST ONE CAUTION: Some stores may use the name "Frigidaire" loosely to identify other makes of refrigerators, and thus confuse the public. If a refrigerator does not bear the Frigidaire nameplate, it is not a Frigidaire, made only by the Frigidaire Division of General Motors. Only a Frigidaire offers these advantages. Be sure you get a genuine Frigidaire.
