ABRAHAM LINCOLN

The passing years give added glory to a great name. New studies of life, new appreciation of his worth, new cyldence of the interest he will account in the hearts of men, fill our papers, our magazines,

MII acouses in the teams of men, intour papers, our magazines, our hook lists. Lincoln is not history, he is present-day news.

"Now Iso belongs to the ages." Well can this be repeated of our Martyr President! Not just to the age that saw his rise from poverty, from obscurity, to the riches of achievement, to the brightness of world fasses. Not to the succeeding sign that spent so much time in the start to authorize the property and to marking the contribution in the same teams. when tasses, the to the succeeding age that spent so then the the effort to evaluate his contribution to his country and to mankind. Not just so our age which benefits in its studies of Lincoln by the perspective furnished by the passing years and what they have given to the better knowledge of him and his work. No, Lincoln belongs to all the ages. What has been is only a shadow of what shall be. Men shall find in the life of the Great Emuncipator a constant flow of new inspirations, an urge to the better things of life, a living and lasting example of what a truly initial man can attain to under lasting example of what a truly spiritual man can attain to under God's guirdance and with the respect for God's ways.

Lincoles does not need the contrast of the sorry looking figures that mat the world today in the oppressed and dictator-ridden countries, to shooke us a Great Man. He stands alone in his glory, a hero in his own right, a friend of man by his own surpassing achievement! But in the minds of thinking people of today, his glory takes on an added aura from the wholesale disregard for human liberties, the absolute contempt for human rights, that have been personified in those scoarges of mankind that now await their destined downfall. For all tenday's dictators, we still have and shall continue to have the Great Enzancipator!

May Lincoln's Birthday remind us that God has been good to us! May help us to be worthy of all that Lincoln stands for!

TOPPING THE GOAL

All of Aluron County and its environs were in on it! All the community shared in it! City folk and their country neighbors, members of the old families and more recent immigrants, Protestants and Jews and Catholics together with men of no religious affiliation, joined in one grand movement to supply a specified part of the cost of the new St. Mary's Hospital. \$275,000 was what they set out to raise: \$38,000 over and above that goal was raised to make a Grand Total

Congruentations are in order for the Sisters of Charity, to whom the hearty response of all the community comes as an appreciation of work well done in the past, of emulation of the good example they have set in supplying a \$1,300,000 building for our needs while asking of us only a minimum of \$275,000. Congratulations to Bishop Kentney and his able assistants in this Compaign. Louis Langle, Thomas Sharp, Dr. Simpson, John Boylan, Raymond Leinen, Mrs. Paisley, Helen Ward, R.N., Mrs. Rudolph C. Siebert, are only a few among the many leaders who directed the activities of over 700 workers in this Campaign. To all the workers the word of commondation of Bishop Kearney come as a crowning event of a period of strenuous compaigning that topped the goal.

Father Randall was the motive power behind the Campaign. He began from the ground and worked up. He built the organization, enlisted the captains and workers, valled on Mr. Metzdorf for expert direction, and got things moving on and on to a real garrison finish. All praise to the Little Cornoral?

God's blessing be on all who by working, by giving, by praying, have marte the Building Fund Campaign of St. Mary's Hospital the outstanding success it has been!

One of her patrons, a fallenaway Catholic, was entertaining at a buffet supper. She ordered for the occasion an especially fine im-ported chesse. So as she left the house for an afternoon's engage-ment, she reminded the butler that

Literary Style

The last word of criticism on Sir Walter Scott's famous literary style was uttered in my hearing by a high school freshman. He and his pals were talking about school on the car near me.

"We're reading Tvanhoe," he said. "The story isn't so bad, but gee whiz, the way the thing is worded!"

Understatement

Maybe this is one of the current army stories, but it's new to me. army stories, but it's new to me. The heavy artillery was practicing with the most powerful guns. The roar of the shooting almost deafened the people in the nearby small village. All, that is, except one deaf old lady. She looked up at the noise, smoothed her apron, sighed patiently, and called out looking toward the door, "Come in."

QUERIES ànd REPLIES

How Could Mary Be Free From Original Sin When All The Rest Of Us Are Bern in It?

The Virgin Mary was conceived The Virgin Mary was conceived and born free from all tant of Original Sin that is the mind of the Church in this matter. The reason for this special privilege is found in the fact that Mary was destined from all eternity to be the Mother of God Incarinte in human flesh, Jesus Christ, the sin-less Savior of the world.

The answer to the question, how Mary could be free from all stainof sin, may be gathered from the manner of her redemption. For Mary too was redeemed as was the race, but differently.

An example may make clear this difference. Two persons from the same house, for instance, come to a physician. One is afflicted with tuberculosia and the doctor cures him. The other is well but the doctor foresees that he will contract the disease unless he takes preventive treatment. The second patient takes this treatment and is saved. Each one owas his life to the doctor; one was cured, the other preserved. Thus Christ redeemed the race and Mary. Because of His merits, Mary was preserved immaculate from Original Sin; and because of her coopera-An example may make clear this Sin; and because of her cooperation with grace, she remained ever free from Actual Sin. Because of His merits, we are cured after contracting the disease of sin, whether it be Original or Actual. She was saved by prevention; we, by cure.
