Clergy Asked To Allay Fears of Aliens Caused By Registration Ruling

WASHINGTON — An appeal to the clergymen of the United States to help allay the fears of individuals affected by the identification requirements for aliens of enemy nationalities was made by the Department of Justice this week. Asserting that "if they have nothing to hide, aliens have nothing to fear," officials here said the acquisition of certificates of identification will, in the long run, prove a protection for the alien. The officials added that ungrounded fears among the aliens required to register is one of the biggest obstacles to the successful and quick completion of the certification. Priests, ministers and rabbis can be of great service in quieting these fears, and their assistance is asked in this direction, Department of Justice officials said. All Must Register

The Government requires all aliens of German, Italian or Japanese nationality, 14 years of age or older, to apply at post offices nearest their places of residence for a Certificate of Identification. For the country generally, applications must be filed between February 9 and February 23. In the States of Arizona, California, Idaho, Montana, Nevada, Oregon, Utah and Washington February 2 to 7 were fixed as the registration dates. All aliens of German, Italian or Japanese nationality, 14 years of age or older, are required to apply for certification between the specified dates.

Bona Prof. Speaks At Holy Name Breakfast

OLEAN — Addressing members of the Holy Name Society of St. John's Church, Olean, at their monthly communion-breakfast meeting last Sunday morning, Marius Riskey, English instructor at St. Bonaventure College stated that "everywhere today in a world of seeming victory of might over right thinking men are asking the time-old question, 'How long is God mocked?' Scripture replies, 'Not forever.' 'We feel helpless as individuals,' he said, 'to do anything to set the world aright, yet actually the most powerful person in the world is not the dictator, but the holy man and woman. If we understand this, we cannot be discouraged. Ultimately, our side wins.'"

Religious Articles Pour In For Servicemen

All roads lead to the Bishop's Office today as rosaries and other religious articles suitable for use by the men in service, are turned in by the various schools designated as centers. This drive, sponsored by His Excellency, the Most Rev. Bishop James E. Kearney, to fill the requests of Chaplains in service from this diocese, closed on Feb. 11, the Feast of Our Lady of Lourdes. Volunteers from the Sodality Union under Florence Dietrich, President, collected materials from the four Rochester Centers this week and will devote this weekend to sorting, counting and packing the contributions received.

Although this drive was set up in the schools, many thoughtful readers of the CATHOLIC COURIER have responded with their contributions directly to the Catholic Education Office. Any others wishing to do their bit may send any rosaries, prayerbooks or medals to the Catholic Education Office, 50 Chestnut St., Rochester, N. Y. Such contributions will help to fill the great demands for such articles.

Believes Sales Tax Would Oppress Poor

NEW ORLEANS (NC) — "I do not hesitate to state that the federal adoption of the proposed federal sales tax would crush the hearts of millions of American citizens who are admittedly already bearing the burden of many indirect taxes, breed discontent and nurture the germs that disintegrate people," the Most Rev. Joseph P. Rummel, Archbishop of New Orleans, told a luncheon meeting of the members' council of the Association of Commerce.

The Archbishop warned that a federal sales tax on basic foods, on medicines and on the cheaper grades of clothing "would certainly be no contribution to the morale of the millions of our population whose present living conditions are just about one step removed from subject destination."

"These workers must abstain from solid food for at least four hours before receiving Holy Communion, and from liquids for at least ONE Hour."

"Moreover, the liquids taken must not be alcoholic."

The Bishop stresses the fact that "persons who are concerned about application of these privileges to themselves will do well to consult their Confessors."

With Lent approaching, His Excellency urges upon all the faithful "the importance of prayer and sacrifice in the winning of victory and peace."

At the same time the Bishop has granted permission to all churches of the Diocese where necessary to have a noon-day Mass on Sundays to begin not later than 12:15 p. m. War Saving Time. Catholic Schools Diocese of Rochester BILL OF RIGHTS WEEK

The week of Feb. 15-21 has been designated as Bill of Rights Week in the schools of the State of New York, in accordance with the Education Law (Section 52A) which provides that "The Regents shall designate a week during each year and prescribe a uniform course of exercises in the public schools of the State suitable for pupils of various ages to instill into the minds of such pupils the purpose, meaning and importance of the Bill of Rights articles in the Federal and State Constitutions."

The Catholic schools of the Diocese of Rochester are respectfully requested to observe this week "in a manner befitting its place in our lives." It is especially timely that careful study and renewed emphasis be given to this historic document. It treats of some of our most cherished and sacred rights. It is a safeguard of the very things for which we Americans are fighting today. A Bill of Rights is one of the best forms of constitutional insurance against the development of a Pagan All-Powerful State.

The meanings of liberty guaranteed by the Bill of Rights, have their roots in God and in God's creative purpose. The more people recognize God's supreme dominion over them, the greater their freedom, strength and security. Without sincere recognition of God and His purpose our American way of life would be extremely perilous. This fact children and youth should be reminded of again and again.
