Catholic Guidance Given In Current Events By Verein

(Because of the profound deliberation given resolutions of the Catholic Central Verein and their timeliness they will be reproduced in this column from time to time).

A HOUSE DIVIDED

Attention was called to the introduction and extension of trade barriers between the States of the country, by the Catholic Central Verein of America on the occasion of its annual convention in New York City. Warning that the continued maintenance of such interstate tariff walls will harm the entire country, a resolution on the subject points out that the practice violates the constitution and should therefore be eliminated. The resolution asserts:
Profiting from the experience especially of European countries, where dissension, strife, even wars were provoked by trade barriers, the framers of our Constitution wisely incorporated in the fundamental law of the land the provision forbidding a State to levy import or duty on the products of any other State seeking entry into its domain. The rapid economic development of our country is due in no small part to the wisdom of this prescription.

However, within the past several years many States have surrounded their domains with trade walls intended to keep out the products of their sister States. Some States have been established "ports of entry," one commonwealth having 40 of these ports situated at as many entrances of its boundaries.

In certain instances automobile travelers are compelled to pay a tax on the gasoline in their tanks, and also upon such items as tobacco already in their possession. Other States impose a "use tax" on all commodities "imported" from another State, or collect a sales tax upon entry. States employing such tactics, in violation of the Constitution, are of course blind to their own real interests. In the first place, no single State is even remotely self-sufficient, to instance a utilitarian argument. Moreover, the prosperity of all the citizens of our country is dependent upon the unfettered trade between the States. To turn back the clock 130 years and divide the country into 48 small nations instead of 48 members of a united nation would work irreparable harm.

In calling attention to this condition, we express the belief that steps must be taken to enforce the provisions of the Constitution affecting inter-State relations.

CARDINAL 'TESTS' JEEP CAR IN CANADA EXHIBIT

QUEBEC - Visiting a special Canadian Army train which has been touring Canada to show modern war equipment, His Eminence Rodrigue Cardinal Villeneuve, Archbishop of Quebec, climbed into the driver's seat of a "jeep" car and smiled as he gripped the wheel and took the light utility car on an imaginary test run.

The Cardinal congratulated the soldiers on the thorough manner in which they explained everything, and said he was extremely impressed with the organization of the army.

TRUTH UNCHANGEABLE

Those who condemn the Catholic Church for not changing her doctrines should condemn the professors of mathematics for not changing the multiplication table. Truth is unchangeable.

The multiplication table was formulated centuries ago, and no educated person ever accused it of not being "up-to-date." So the truths of the Catholic Church were formulated centuries ago, but no educated person ever accused them of not being "up-to-date."

Kin of 4 In Religion

Quebec. - Mrs. Euphemie Grondin Lussard Jacques, who died recently at St. Joseph de Beauce, was the mother of Abbe Leon Lussard, professor at Levis College, and Sister St. Euphemie of the Sisters of Charity, and the sister of Abbe Philibert Grondin missionary, and Sister St. Octave of the Sisters of Charity.
