# Holland's Bishops Warn Of Nazified 'Labor Service'

LONDON—(N. C.)—Full text of the joint Pastoral Letter written by the Archbishops and Bishops of The Netherlands read in all the churches of Holland on April 19, has been made available here by the Netherland Government Information Bureau.

The Pastoral is as follows: "Beloved Brethren. Conscious of our pastoral duty and anxious for

the wellbeing of your eternal souls, we feel compelled to speak of our great concern for the trend of affairs in our country. We are particularly concerned about the manner in which the three foundations of the life of our people, justice, charity and liberty of conscience and conviction, which are rooted in the Christian faith, have been and are being contaminated.

"You know of the injustices and cruelty inflicted upon the Jewish part of the population and the enforcement of a National-Socialist way of life and outlook which goes against the teachings of the Gospel.

**Church's Freedom Harpered**  
"It becomes more and more difficult for the church to practice its benevolent work for which many have had to sacrifice their freedom. "Once again, beloved Brethren, we urge you to pray often and intensively for the preservation of Christianity in our Fatherland.

"A further great anxiety is the labor service, which has been made compulsory for different classes of young men who wish to fulfill a post. Those who are not entirely engaged in enterprise can be forced, under the threat of severe penalties, to enter the labor service.

"The age from 18-24 is a dangerous period. In former days, our young men were called up to do their military service. But convinced that the support of religion is indispensable in education, the Government gave official recognition to religion in the army. Army chaplains were appointed. They held a rank in the army and their work was given as much support as possible. In military societies recruits could find recreation, find support in each others' company and could practise their religion under the guidance of their chaplain and keep away from temptation.

**Under Nazi Influence**  
"The labor service has promised that no one will be prevented from practicing his religion, but officially religion has no place, nor does it give any support to religion. But what is much worse, the labor service will be under National-Socialist influence. Officially it has been stated: A labor service can only be National-Socialist. It can be built up only according to these foundations and fulfill its task, based upon blood relationship and the honor of labor.

"This, beloved Brethren, fills us with great concern. You know this: the outlook of National-Socialism is directly at variance with Christianity and is a very serious threat to our Christian faith and our Christian morals. That is why a labor service with National-Socialist aims is a great danger to our youth. For this reason, parents, you may not, if this is at all possible for you, allow your children to enter the labor service. Upon you rests, in the first place, the right and the duty to see to the education of your children; God has placed this in your hands. You may not expose your children to such great dangers without urgent necessity.

"And you, young men, who are of age, you may not enter the labor service without it being absolutely necessary.

"If you, parents and young men, consider that this is absolutely necessary, it is your duty not to take a decision in this very serious matter without consulting an experienced spiritual guide."

## Card. Hlond Detained By Vichy Authorities

WASHINGTON—Vichy French authorities have categorically refused His Eminence Augustus Cardinal Hlond, S.C., Archbishop of Gniezno and Poznan and Primate of Poland, permission to leave Unoccupied France, according to the Polish Catholic Press Agency, KAP.

Cardinal Hlond is at Lourdes and is said to have been refused permission to leave because of German opposition. He had sought to leave the country some time ago, and had already received Spanish and Portuguese visas.
