With the spirit of faith with which Columnat on sail on August 2, 1942 in Dunner that New World. we must chart and set our course toward two resignation of that new and better world for which we fight Our fight is on all fronts, in-

clading the economic front.

Freedont Roosevell stated on Labor Day that a crisis is here in the fight against inflation. He emphasized that it is vital to the welfare of the nation and to the winning of the war that we take without further delay a firm, anrigiding stand against soaring

Never was the President more right' if we are to attain those broader sime of freedom and security for all for which our men and our allies fight and die today on the world's bloody battlefields. we must maintain stability and equity at home. The runaway spiral of soaring prices and costs would not only disrupt our war effort but it would greatly endanger the prospects for a safe and secure transition back to a peace-time economy after the victory is won

There is only one way this avii ean be avoided we must save more and more. We must spend only for things that are absolutely ossential' Only by divorting large portions of our awoilen incomes from spending to saving can demand come down to equal supply. and can inflation thus be checked. Whether we win or lose this fight against inflation depends on you on what you do with the money you earn. The important thing is to save more and to help you to help yourself and your country, the Government has offored War Savings Bonds at high interest rates for investment of your savings A dictator state could simply take your excess funds out-
