ON THE HOME FRONT

ANOTHER CONSERVATION MEASURE

The illustration shows what became of a mirror and piano stool. To the mirror and stool were added two wooden boxes from the grocery. These were placed on end about 18 inches apart and a shelf of half-inch plywood was screwed

to the top. A frame was then screwed to the back of the boxes as shown. A curtain rod was placed across the top and the mirror hung lengthwise under it. An arm was then hinged to the front of each box. Paint was next white, because white furniture is smart and because it matched the woodwork. The flowered chintz in tones of rose and blue-green with narrow frills of the plain blue-green tone matched the window curtains. The dressing table skirt was made with a 1-inch heading at the top and tacked along the ends of the table and the hinged arms with thumbtacks through a double strip of the plain material.
