

Knights of St. John Set Corporate Communion Sunday

Uniformed Knights To Escort Bishop, All Members Invited

An invitation has been extended by Col. Frederick J. Wegman to every uniformed and non-uniformed member of the Rochester Regiment, Knights of St. John, to take an active part in the Corporate Communion to be held at Our Lady of Perpetual Help Church on the Feast of Christ the King, Sunday, Oct. 20, at the 8:30 A. M. Mass.

The Most Rev. James E. Kearney, D.D., Bishop of Rochester, will celebrate the Mass

The Bishop and clergy will be escorted by a detail of the Colonel's staff from the Rectory to the Church.

The Knights will meet at Red Wing Stadium at ten minutes before 8 o'clock and march in a body to the Church. Inside the Church the uniformed members will occupy pews on both sides of the center aisle while the non-uniformed members will occupy the pews on the side aisles.

The intention will be for the welfare of the members and sons of members who are in the country's armed forces and that a just and lasting peace come to the world. After Mass the regiment will leave the church in a body and after the colors have been paraded all the regiment will be dismissed at the point of formation.

New Holy Redeemer Church Organ to Be Blessed Friday Evening, October 23

The new organ in Holy Redeemer Church, Hudson Ave. at Clifford, will be solemnly blessed by His Excellency, Bishop Kearney on Friday evening, Oct. 23, in a ceremony scheduled to begin at 7:45 P. M.

In conjunction with the ceremony, a dedication feast will be given by Professor Philip Kreckel, internationally known as a composer and organist. The church choir with Eugene F. Bopp as soloist will also take part in the program.

The Rev. F. William Stauder, pastor of Holy Redeemer Church, announces that the public is invited to the ceremony. No printed tickets or invitations have been issued. It is a ceremony at which all interested will be welcomed.

A description of the new organ prepared by Professor Kreckel is as follows:

The new organ is a magnificent three manual instrument containing thirty-five speaking stops and about two-thousand pipes ranging from the full round to feet Tubo and Open Diapason tone, to the soft ethereal tone of the delicate strings and dulcianas. The organ has been carefully planned and especially adapted to the spacious edifice, which is most favorable for the acoustical qualities of this grand organ. In each of the three independent organs, Great Swell and Choir, is an abundance of diapason tone, the most essential stop in the pipe organ. These foundation stops are rich and full of character, producing a churchly tone much after the style of famous cathedral organs.

Holy Redeemer Parish now possesses an organ which is unique and second to none in the diocese—an instrument which is greatly enhanced by the resonance of a fine church. The entire organ is of the most satisfying quantity and quality, and the full organ blossoms and blooms with a smooth, rich tone that leaves nothing to be desired.

All of the most important registers utilized in the art of organ building are to be found in the organ. There are, besides the foundations and bright mixtures, a number of fine flutes, voiced perfectly. The most important are the Gross Flute, Clarabella and Stopped Flutes, which are useful both in ensemble or as solo stops. The soft strings which contain 80 per cent pure tin are of extra fine timber, also the reeds are of a quality which add fire but not glare to the build-up, and even the large scale tuba is so smooth that it makes a lovely solo stop.

The average Pedal organ contains only one or two good 16 foot

stops, due to the cost of pipe construction, but here we find nine good Pedal stops, five being of 16 feet pitch, which make this important branch really outstanding in power and clarity.

The mechanical action is most flexible and responsive, being of the latest electro-pneumatic type. The thirty-five stops, and twenty-one couplers are in the form of fitting labels and under the direct control of the player over the manual keys. There are also twenty piston buttons which visibly bring on the many combinations which the organist can set automatically. Swell expression has attained perfection, due to the strong enclosures and thick linings which are also controlled by the swell pedals.

The housing of the organ is both practical and artistic, the case being of rich oak design, extending across the whole gallery with the display pipes in gold bronze, and with grille work to match. Since all organ firms must now devote themselves entirely to the war effort, it is most fortunate that Father Stauder and his parish were able to secure such a fine large organ at this time. The builders, the Tellers Organ Com-

pany of Erie deserve high praise for an artistic achievement.

Vatican City - His Holiness Pope Pius XII has appointed the Most Rev. Miguel Angel Machado to be Bishop of San Miguel, El Salvador, and the Most Rev. Benjamin Barrera to be Titular Bishop of Sabadilla and Auxiliary Bishop of Sant Anna, El Salvador.

Holy Ghost Novena Opens At St. Mary's

A perpetual novena in honor of the Holy Ghost, Third Person of the Holy Trinity is being conducted at 8 P. M. every Wednesday night in Old St. Mary's Church, Washington Park. It is announced by the Rev. Dr. George F. Kettell, pastor.

The novena in which the Seven Gifts of the Holy Spirit are considered was opened by the Rev. Kenneth Dolan, C.S.S.P., of the Holy Ghost Missionary College, Cornwall, Pa., on Wednesday of last week.

This special novena to the Holy Ghost will continue each Wednesday evening, Doctor Kettell states.
