## SCHOOL COLLECTION SUNDAY

Postponed because of the Mission Sunday collection we will take up this Sunday at all the Masses your contributions for our parish school. Generous support of this collection is anticipated, for the importance of our parish school and the expense of our recent improvements are quite obvious to our people. Envelopes, distributed last Sunday, are available at the doors of the church.

**Pew Rent Quarter Next Week**—Pewholders are reminded that the new pew rent quarter will begin on Nov. 1. We ask that they will take care of their pew rental payment as soon as possible.

**Blanket Club**—This week, Miss Mary Winkle of Grand Ave.

**Harvest Festival Tickets**—The preliminary sale of tickets for our Grand Harvest Festival will begin next week. Tickets are being readied for distribution and will reach our people not later than next Thursday. The Committee for this Grand Festival will be selected next week and plans for one of the finest festivals ever held in our parish will be arranged. Volunteers to work on the committee are invited to hand in their names to the pastor by Wednesday. The dates for this festival are set for Saturday and Monday evenings, Nov. 21 and 22.

**Tuesday Nite Parish Parties**—These parties are drawing such fine crowds that we again extend an invitation to our parishioners and their friends to come and enjoy an evening of entertainment with us. The parties begin promptly at 8:30. Admission is 50 cents at the door.

# Causes of World Disorder Studied By Verein Units

Discussion of the preamble to the resolutions adopted at the St. Louis convention of the Catholic Central Verein of America was the principal topic at the joint meeting of the Rochester Branches, Catholic Central Verein of America and National Catholic Women's Union held last Sunday afternoon in St. Joseph's Hall.

The discussion was led by former County Judge Philip H. Donnelly, who after reading the preamble, explained the care with which it had been written and the philosophy on which it is grounded. He pointed out that the resolutions in themselves furnish the guide post for what is to be done, but that the preamble contained an explanation of the causes which have brought about the disorder of our day, particular emphasis being laid on the de-Christianization of western civilization, and the turning away from God and his law.

**Lead Discussions**  
Among those who participated in the discussion were Miss Laura Schilling, Oliver Wacaszke, Harry deCocq, Anthony Limpert, Anthony Kehrig, Joseph H. Gervais, Martin Spindler and August Hodas.

A report of the conference of Parish Credit Unions held last month at Holy Family Parish Credit Union was given by Joseph H. Gervais, chairman of the committee on parish credit unions. He told of the efforts of the parish credit unions to help their members by encouraging savings and the purchase of War Bonds.

A committee was appointed to arrange for the celebration of the Feast of the Immaculate Conception, the patronal feast of the Branch.

A resolution was adopted directing the secretary to write the National Broadcasting Company and the Columbia Broadcasting System for an explanation as to the reasons the Cooperative League of the U. S. A. had been denied the use of stations KDKA and WJBY for the broadcast of the League's proposed radio series.

William J. Fuehrer, president of the Men's Branch, presided.

## Makes Saints

It is neither asceticism nor long prayers which make Saints, but the sacrifice of our own will even in the holiest of things and a complete submission to God's will.

# St. Bonaventure College Activities

St. Bonaventure College, in cooperation with the United States Office of Education, is preparing to offer free courses for the education and training of war industry workers.

John L. Worden, a member of the St. Bonaventure College Science staff, has been appointed as Institutional Representative and Director of the Program. Harold J. Torney has been named supervisor of the courses offered by the Chemistry Department, James L. Hayes, supervisor of those offered in Production Management, and Peter H. Hoffman, Supervisor of courses in Physics. Instructors in these courses will be selected from local industries and from the College staff.

The object of the program is to provide short courses of college grade which are designed to meet the shortage of chemist, physicists, and production supervisors in fields essential to the national defense. All courses will be open to men and women who are high school graduates or the equivalent and will be given in Ocean, Salamanca and at St. Bonaventure College during the late afternoon and evenings. These courses will be entirely free of cost.

This program is not a part of the regular college curriculum, but is to be made up of courses designed to meet the particular needs of industry and workers. As far as possible all courses will be planned by the instructors in charge in consultation with plant executives and employees.

Some of the courses under consideration for inclusion in this program are: General Chemistry, Industrial Chemistry (general or specialized), Analytical Chemistry, Accounting, General Physics, Spectrochemical Analysis, Mechanical Drawing, Industrial Mathematics, Statistics, Personnel Management, Business Mathematics, and others. Instruction is expected to begin about Nov. 1.
