Caution Servicemen's Kin Against 'Surprise' Visits

WASHINGTON (NC)—The National Catholic Community Service, with other member groups of the United Service Organizations, is seeking the widest possible circulation of a list of ten cautions for relatives and friends who contemplate visiting men in the armed service.

The cautions were prepared by the National Travelers' Aid Association, one of the USO member groups, in an effort to ward off "surprise visits" which, it was stated, generally lead to "soaking but bitter and expensive disappointments." The list of cautions follows:

"I. Visitors MUST know the name, rank, unit, exact address, and, if possible, the military number of the servicemen they seek.

"II. Advise the serviceman, by registered mail, of your planned visit, and wait for his answer before starting on your trip.

"III. Plans for housing, transportation time of arrival, etc., should be understood by relatives and servicemen before the start of the journey. Arrange for a meeting place.

"IV. Disregard rumors or movements of military or naval units which are the stations of your relatives.

Hitler Aims To Wipe Out Christianity Says Dr. Rauschnig

DETROIT.—Adolf Hitler intends to wipe out Christianity and the Jews are annihilated and substitute his new Germanic religion, Dr. Herman Rauschnig, former close confidant of the Fuehrer, said in an address here at the ninth "Christian Culture Series" of the Assumption College League.

According to Rauschnig, Hitler applies with twisted logic philosophy such as Rousseau's back-to-nature idea and advocates that since man is just an animal let him improve biologically like an animal; let a superrace be developed, because "creation is not at an end."

Dr. Rauschnig, the former president of the former Danzig Senate whom Hitler told of secret aims in an effort to attain his cooperation before Germany overran the Baltic free city along with Poland, listed the seven basic precepts of Nazism as:

1. Domination of the whole world, other peoples to be slaves for Germany.
2. A new society of the privileged and the total loss of the rights of the unprivileged.
3. The peasants to become poor and have merely a function of supplying reserve Nazi blood.
4. A new economic system as a weapon to rule the masses.
5. A new political technique of totalitarianism.
6. A new age, based on the biological conception of blood and superrace, and
7. A new religion, free of the fear of death, substituting for the immortality of Christianity other ideas.

Many people in Germany supported the Nazis because of certain good aspects of National Socialism, and they were willing to hope that the concentration camps would pass away as had happened in other revolutions, said Dr. Rauschnig, telling his distinguished audience, which included Mr. and Mrs. Henry Ford, that it was not only a political revolution but a spiritual revolution and a new religion.

The rise of Hitlerism was blamed on "treason of the intellectuals," pragmatism, relativism, scepticism, and cynicism. Americans were warned to eradicate these evils here to bulwark the nation against totalitarianism. Answering questions after his lecture, Dr. Rauschnig said that the only German statesman left who might be a rallying point for decent men was former Premier Bruening, who, he contended, might have halted the rise of Hitler had he not been ousted from influence.

Lauds Troops Piety

Sydney Australia. "I gladly welcome you as Catholics. You have given great edification to us since your arrival. Your piety and devotion have stimulated us to imitate your good example," declared the Most Rev. Norman Gilroy, Archbishop of Sydney, in an address to members of the U. S. Forces who attended a Solemn

committee of any Army or Navy organization, which organization is not at all in the discharge of its duty and is not to be considered as such.

"VI. Arrange for passage money when you start. In many places such arrangements must be made many days in advance.

"VII. Leave the baby at home, unless you have made arrangements for a nurse in a place where children are allowed.

"VIII. Never undertake a long trip with children unless you have made arrangements to care for them. Don't take them with you unless you have the approval of your commanding officer.

"IX. On a war boat (LST) Travelers' Aid and here the attention should be making your plans. Be careful with other LST Travelers' Aid units, arrangements should be made for passage, etc."

Now you see them, Now you don't!

The "summer catch", taken close to Southern California shores, makes tuna appear plentiful now - but there are no reserve stocks to carry over the non-fishing season - and long-range tuna clippers which ordinarily make winter and spring hauls near the equatorial zone are "in the Navy". That's why tuna fish will do another "disappearing act" when the summer catch is gone. 'nuff said!

Your grocer is doing his best to maintain stocks. Please do not blame him when he runs short.
