## Designed For LIVING

Naturally the Civic Centre can serve its clientele best because it was designed for living. An institution cannot hope to be a proverbial "Jack-of-all-trades" and still expect to render 100% efficient service to its residents. Located round the corner from everywhere, with a price range within reason, the Columbus Civic Centre lives up to its design . . . for living.

## Justice Due Nation From All Residents Says Father Smith

NEW YORK (CNC) -The United States Government recognizes that it is absolutely necessary for the achievement of human happiness - the sovereignty of God in the life of the nation and the inalienable dignity of individual personality as the recipient of God-given inalienable rights. The Very Rev. Ignacius Smith, C.P., Dean of the School of Philosophy, Catholic University of America, declared in a radio address over the "Catholic Hour" Sunday night.

Father Smith spoke on "Justice to the Nation" in the first of a series of five addresses which he will deliver over the "Catholic Hour" which is sent out over the network of the National Broadcasting Company through Station WREAR here and is produced by the National Council of Catholic Men.

"When I speak to you about justice to the nation I have in mind this democracy of the United States," Dr. Smith said. "I have in mind, in speaking of justice, some of the debts that are owed to our nation and which must be paid.

"There are compulsory foundations for the preservation of this nation both in the life and teachings of our Master, the Divine Jesus, and in the facts and philosophy of our democratic nation. Our Lord Jesus gave constant proof of His special love of and interest in His own people and His own country. Hearty-loving and patriotic Galilee. He laid deep foundations for patriotism and the recognition of indebtedness to country when He told the questioner who sought to seduce Him into sedition, 'Remember therefore to Caesar the things that are Caesar's, and to God, the things that are God's' (Matthew 22:21).

### Great Army of Debtors

"The facts and philosophy of this incomparable democracy reveal that a great army of debtors to our nation has been created. I do not refer especially to the other nations of the world who during the last world war and this global war have become indebted to our government and our people. I have in mind the indebtedness of our own citizenry and of other residents of this nation to our country.

"Our nation has given to us a government that recognizes two truths absolutely necessary for the achievement of the human happiness which individuals crave. The first of these truths is the sovereignty of God in the life of the nation. The second truth is the inalienable dignity of individual personality as the recipient of God-given inalienable rights. The recognition of these basic truths has given our citizenry advantages that can not be enjoyed under atheistic or totalitarian governments.

"Our nation has also made us debtors because of the opportunities for the development of personality it has offered to tens of millions. To the oppressed and persecuted peoples of the whole earth, to your ancestors and mine, it has offered sanctuary and an opportunity to find gainful employment, to possess the land, to erect their homes, to rear their families, progressively to advance their standards of living, to choose their rulers, and to enjoy a life which the old world could not or would not give our forebears.

"The justice that is called patriotism demands that each and every citizen of the nation make payment for this kind of government, for this kind of opportunity, and for this kind of freedom, in proportion to his ability to pay. This is our American idea of patriotism."
