Ch. Nolan Reports On War Salvage Drives

Planning to extend its war-time efforts in 1943, the Rochester Salvage Committee has made a report of activities during 1942 which covers extensive work done in salvaging scrap metal, paper, rubber and tin for the war industries.

The report signed by William T. Nolan, chairman, covers the period from Feb. 5, 1942, when Mayor Remuc B. Dicker called the first meeting.

Prominent and patriotic citizens took part in arranging and carrying out the various successful campaigns.

Highlights of the campaigns conducted are:

Scrap Metal Drive of April 26, 1942, brought in a total of 1,630 tons of scrap metal for which the committee received \$12,740.80 which was turned over to the City Treasurer.

Paper and Rubber Drive of June 24, 1942, resulted in a total of 29,000 pounds of scrap rubber worth \$2,348.90 turned over to the City Treasurer.

Tin Can Collection - Apr. 27, Oct. 10 and Dec. 5. Net results of these drives amounted to nearly 287 gross tons of tin cans for which a check for \$162,941 was turned over to the City Treasurer. The Committee also received and paid \$100.50 to teams in surrounding area for tin turned in on the drive.

Scrap Metal Drive promoted by the newspapers and held on Oct. 24, 1942, brought in approximately 3,800 tons of scrap metal.

"The success of these various drives has resulted from the combined efforts of so many people that it is impossible in this report to give credit in the many places where it is due," the report states.

Special thanks are extended to the press and radio for cooperation and to the Rev. Charles J. Mahoney of the Catholic schools and James Morgan of the public schools, and to the committee members and office staff who cooperated.

The Troop Committees of the Six Troops will also be present to help make the evening enjoyable by helping to play the various games planned for the occasion.

236,000 At Shrine

CAP DE LA MADELEINE, Que.—During the past year, 236,000 pilgrims visited Our Lady's shrine directed by the Oblate Fathers here. This represents a reduction of 80,800 from the previous year, due to wartime restrictions in motor car travel and the ban on organized railway pilgrimages.

Red Cross blood plasma saved wounded soldiers, sailors and marines' lives.
