A SILK QUILT FROM SCRAPS
Many an old-time art is being revived today and the art of making old-fashioned crazy patch quilts is one that fits into our times. All you need is scraps of silk and odds and ends of embroidery thread. The pieces are sewn to a foundation of lightweight cotton material with a variety of embroidery stitches.

This colorful patchwork may then be used for a new cover for a comforter. Another idea is to cover a worn woolen blanket with it. The results will be a warm and luxurious quilt that will last for years.

NEXT WEEK: Draw Curtains from your present fixtures.

NOTE: Book 7 of the series available to readers shows another crazy patch design and gives directions for more than twenty stitches and combinations of stitches to be used for this work. **BOOK 1** of the series gives directions for forty-two other stitches that you will want to use for your quilt. Books are 10c each plus 2c to cover postage and mailing costs, and requests should be sent direct to Mrs. Spears, Drawer 33, Bedford Hills, New York. (Copyright)

Mothers' Club Recites Rosary During Blackout

SHREVEPORT, La.—(NC)—Notice of a State-wide surprise black-out came when the monthly party of the St. John's Mothers' Club was in full swing. As the time was too short to cover the windows in the school basement, lights were put out when the black-out signal sounded and more than a hundred members and guests sat in darkness. The Rev. Kevin Nowlan was asked to speak, but he had a better idea. He began the rosary.

Labor Federation Opposes Women Equality Law

WASHINGTON.—Enactment by Congress of proposed legislation aiming at a Constitutional amendment to provide "equal rights" for women, will be opposed by the American Federation of Labor, it was announced here by William Green, president. In a formal statement, Mr. Green said: "Such a Constitutional Amendment would place in jeopardy all laws protecting women in industry. At this time, when women are being recruited for jobs in war production plants in ever-increasing numbers, the 'equal rights' Amendment would be particularly dangerous and harmful."

"The American Federation of Labor sympathizes with and supports the efforts of women's organizations to remove from the statute books various laws discriminating against women as to property, guardianship, naturalization and other rights guaranteed to men. We advocate specific measures to wipe out such discriminations."

"But a Constitutional Amendment must, of necessity, be drawn in general terms allowing no reservations. Therefore, if it is adopted, the validity of existing laws limiting the hours of work for women and otherwise protecting women in industry, would be subject to judicial assault."

"We cannot afford to have these industrial safeguards tossed overboard now. They are necessary to conserve womanpower and to assure maximum war production at peak of efficiency. The 'equal rights' Amendment, despite its praiseworthy objectives, might result in sapping the strength and destroying the usefulness of our women war workers. For this reason, the American Federation of Labor, which numbers many hundreds of thousands of women in its ranks, will oppose this legislation to the limit."
