Let us not be confused in our thinking. The laws of God are the same in times of war as they are in times of peace; just as important, tempered with the same justice, carrying with them the same punishment. For nonconformity, Planned Parenthood groups would have us believe otherwise.

We are good citizens because we are good Catholics and as such we are deeply interested in the progress of our Nation. We request any suggestions that our birthrate be controlled or limited. The following statistics make us ashamed that we have not taken a more unified position against these evils. Did you know that (1) Of all the married women in the United States 42 per cent have either no children or at most one child; (2) Of all the married women in the United States only about one-third are mothers of a sufficient number of children even to keep the population stationary. (3) In our cities our American people are only replacing themselves by about two-thirds, and our urban professional classes are replacing themselves only by about 60 per cent. These facts are incredible and must shock and grieve the hearts of American mothers who are sending our sons to the front to die, if necessary, to protect our institutions, and our homes, to safeguard our traditional American ideals. Should we be asked to sacrifice our sons if these subversives of family life are permitted to spread their propaganda that "will make of us a decadent nation, a selfish and undisciplined people?" It is time for the defenders of the family, Catholic and non-Catholic, to crusade against any group whose object is to smother the growth of the best, the noblest, the greatest Country on the face of the globe.

This is truly our war, Catholic mothers, we must align ourselves on the front line of defense; even though our hearts are bleeding for our own sons we must courageously protect our Nation from the enemy within our gates—the enemy who would destroy the very civilization and democracy we all love. Let us instruct our daughters and daughters-in-law in the obligations that are demanded of them in their service to God and Country.

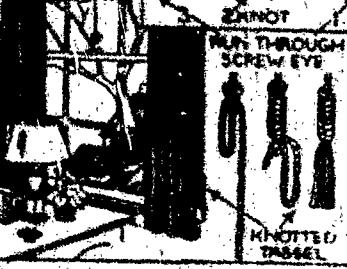

"It would be wise to take our cause to St. Joseph, the Protector of the Holy Family. Without the family no nation can exist. Let us seek the aid of St. Joseph, guardian of every Catholic family."

HOW TO MAKE DRAW CURTAINS

It is easy to make draw curtains with the fixtures you have, plus a pair of large screw-eyes, some wood or brass rings, AND about five yards of cord.

The screw-eyes are placed just under the hooks for the curtain rods; then run the cord through the screw-eye at the right; then through the rings, knotting it to the left ring at center; then through the rings and the screw-eye at the left; and back through the rings, knotting it to the right ring at center.

Now pass the cords through the rings and the right screw-eye and then make the tassels; raveling the ends of the cord after making the knots. Use safety pins to the back of the curtains so that they may be fastened quickly to the rings.

NOTE: The curtains shown here are from BOOK I of the series available to readers at 10c each, plus 2c postage and mailing costs. BOOK I also contains directions for making curtains for various rooms; also cutting and making directions for bedspreads, dressing table skirts and slip covers. To get a copy send name and address with the money to Mrs. Spear, Drawer 124, Bedford Hills, New York. (Copyright)
