## Students Strike When Rector In Mexico Is Ousted By Politicians

By Charles Rodes

MEXICO CITY (NC)—Ousting by Michoacan politicians of Dr. Victoriano Anguiano from his position as Rector of the University of San Nicolas de Hidalgo at Morelia, presumably because he advocated amendment of Article 2 of the Federal Constitution at the recent National Education Congress, has had further repercussions in the Capital. The student body of the National Autonomous University here is on strike and refuses to return to classes until full autonomy is restored to the Morelia institution.

President Manuel Avila Camacho has withdrawn Federal aid from San Nicolas. The direct action of the President, which confirms his announced policy that the social and cultural forces of the country are not to be subjected to political captiousness and the arbitrariness of government officials, has met with popular acclaim and is regarded as a masterpiece of political skill.

It has always been a matter of great satisfaction to the majority of Mexicans that the universities, because of their constitutionally guaranteed autonomy, have been able to keep higher education in Mexico free from the influence of "Socialist" or other political trends. Popular sympathy naturally would be on the side of the Rector of the Autonomous University of San Nicolas which happens to be one of the oldest in America, having been founded by the first Bishop of Michoacan, who had proposed amendment of the obnoxious education clause in the Federal Constitution.

Rebuke to Governor. The President's decision to withhold Federal funds from the University but to make them available for Michoacan students who wish to continue their studies at other universities, constitutes a rebuke to Governor Felix Irujo without violating the sovereignty of the State of Michoacan.

These in office ought to set an example of honesty and respect for institutions and human liberty. President Avila Camacho said to Dr. Victoriano, "When the social forces are affected by some error or act of bad faith emanating from public functionaries, these forces are exercising their rights in demanding reparation for the offense officials who do not comply with their duties should find their worst punishment in moral reprobation of their acts by all citizens." Shadowy Strike Continues. The student body of the National Autonomous University is on strike and refuses to return to classes until autonomy is restored to the University of San Nicolas de Hidalgo at Morelia. Students here in the Capital are solidly behind the rector, council, faculty and students of the Michoacan State University in their opposition to political meddling by Governor Irujo and the Michoacan Legislature.

### 685,200 HOLY COMMUNIONS RECEIVED BY SERVICEMEN IN MONTH OF DECEMBER

NEW YORK—Reports from 1,126 commissioned and 100 auxiliary chaplains on duty with the armed forces reveal that a total of 685,200 Holy Communion were received by American fighting men all over the world during December. It was announced at the Military Ordinariate today.

The figure represents a new monthly high, officials stated.

It does not include Holy Communion received by Catholic military personnel at civilian churches. In disclosing the figures, the Most Rev. John F. O'Hare, C.S.C., Military Delegate, said that the highest previous number of Holy Communion reported was for the month of November, 1942, when reports from 1,086 commissioned and 127 auxiliary chaplains showed a total of 588,019 Sacred Hosts distributed to military personnel.

The figures for Holy Communion received on Christmas and the Feast of the Immaculate Conception totaled 262,465. The December First Friday total was 14,664. The Sunday total was 254,103 and the week-day total 230,623. Communion distributed to military and naval hospital patients totaled 9,168 during the month.

### Third Bravery Award

St. Petersburg, Fla.—Lieut. (1st) Right J. Schaefer, U.S.N.R., a member of St. Paul's Church parish here, has been decorated with the silver star medal for "conspicuous gallantry and intrepidity" as commander of an armed guard crew aboard a merchant ship during aerial dive-bombing and the sinking of the vessel on June 15, 1942.

Day after day important war production plants in occupied Europe are destroyed by explosions, by fire. "Spontaneous combustion," say the workers with their tongues in their cheeks. The Nazis know better. They rare and shoot more hostages; send more prisoners to work camps. The destruction ruins even the people's chance to earn food from their military masters. They are faced with starvation—but the devilish continues.

Be thankful you may work peacefully at your task and put your earnings into United States War Bonds and Stamps. U. S. Treasury Dept. WBS 141C
