A Moment's Taste

Our greatest misfortune is the taste we get upon visible things, which are the only things we prize. If we could but taste for one moment the treasures of heaven, how we should despise those which now dazzle and fascinate us!—St. Basil.

Problems of Labor Now Loom Large On Washington Horizon

WASHINGTON (NC)—The problem of labor is looming large on the Washington horizon. It is not merely a question of finding workers to man the war plants and raise the crops...

A change in the traditional attitude of Congress toward labor is indicated in the report of the Truman Committee. It is generally regarded as the most important special committee in the lower house. The committee has by way of warning the leaders of labor must now demonstrate that they are statesmen and patriots as well as paid negotiators for worthy causes.

The report goes on to say that the labor problem is not a new one. It is a perennial one. It is a problem of the industrial revolution. It is a problem of the machine age. It is a problem of the modern world. It is a problem of the future.

Archbishop Calls For Sacrifices At Home To Back Men In Battle

(Continued from Page 1)

Archbishop Spellman recently called the need for relief funds among the people of congested Europe and for the property of war of all nationalities.

His appeal of his plans to visit Europe and the Middle East, I shall stay there for two weeks.

While the best of America's strength is defending America's spiritual, physical and material frontiers, and the rest of us doing everything possible to stop the hateful wolverine of Cain incarnate again. Are we doing everything possible to stop the current tide of hate, crimes and hatreds deluging destruction?

War may perhaps be won by force of arms, but peace is won only by justice. Justice is the mind of civilization and charity is its heart. If America as we know it and love it, is to win the peace as well as the war, then American must do more than just to herself and her sons and daughters, as they are now proving themselves worthy by their loyalty and their devotion to her in all the battlefronts of the world as well as on the home front.

Prominent Persons Honor Editor of Publication Which Attacks Catholics

NEW YORK (NC)—Kenneth Leslie, editor of *The Protestant*, a publication which has run numerous articles attacking the Catholic Church, was honored by a large gathering of prominent persons.

The Most Rev. J. Francis A. McHugh, Auxiliary Bishop of New York, speaking before the Catholic Trade Unionists, attacked this meeting without referring to it by name, as a deliberate violation of "conclusion." He charged that the attendance of this gathering was to dictate the policy of the Administration. The leaders of the industry of this meeting have expressed themselves as being behind the government as long as their philosophy agrees with the government. This is individual interpretation without respect to the divine law, the natural law or the established law of man.

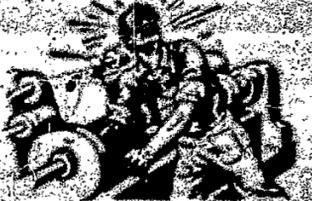

In reply, Mr. Leslie said: In part, "It is our immediate duty without further delay to switch this war into an anti-fascist war, severing our ties with Spain and Finland and opening a second front that will establish a basis for understanding and confidence between Russia and the West."
