## Oppose Publication Of Book On Russia

NEW YORK (INC) — An attempt at pre-publication censorship through a pressure campaign of intimidation was revealed here today by officials of the Book-of-the-Month Club. The club has been flooded with protests from members of radical organizations against the book, "The Fifth God," an English translation of the Russian novel by Mark Aldanov. The burden of complaint is that the book is anti-Soviet and that it constitutes a menace to Russo-American amity.

Officials of the club have characterized the protest campaign as a "boycott" and a "boycott" of the book came off the press today and is the May choice of the club, which has 600,000 members throughout the country. According to the club management, many of those who sent in protests either admitted they had not read the book or made that fact known by their own comment.

Instant was a letter of resignation sent to the club by Professor Dorothy Brewer of the English faculty of Columbia University. The campaign to prevent publication of the book was launched, the club management said, by the literary editor of The Daily Worker, a Communist publication. Copies of her letter were broadcast to radical groups.

## 'Victory Corps Bill' Opposed As Control Peril

WASHINGTON (NC)—Asserting that the "Victory Corps Bill" now before Congress "would give the United States Office of Education the power to control the curricula and activities of the secondary schools of the country during wartime," the National Catholic Educational Association has expressed its opposition to the measure by its participation in the Senate Opposition to an Education and Labor

Under the direction of Rev. John M. Dwyer, superintendent of schools, the High School Victory Corps was organized in all the high schools of Rochester, N.Y., in November, 1942.

During the Victory Corps, it is announced in all schools of the diocese and the nature of the program depends upon the local school. The program consists in making school activities so well as changes in the curriculum. Physical fitness program consists in daily activities, physical education, mathematics and science courses directed to the war program have been included.

At a meeting of the Senate Department's Office of the National Catholic Educational Association last fall, the members of the Victory Corps organization from Washington and the program was not to be very different from organizations of youth of other parts of the country. At the time, it was stated that it was to be primarily for the purpose of training youth in the field of the war.

Writing in the name of the K. of C. A. of which he is Secretary General, the Rt. Rev. Mgr. George Johnson, state Senator, Robert D. Thomas of Utah, Chairman of the Senate Committee, that the Association "has not object to the Victory Corps as such," and that "many Catholic secondary schools are participating in the program."

He adds that the K. of C. A. would be to the program which would appropriate \$1,000,000 a year and which provides that the Federal Government shall pay the salaries of "State Directors of a High School Victory Corps," of supervisors of physical fitness, chemistry, mathematics, physics, astronomy, and of occupational instruction and war service committees.

Mgr. Johnson says such direction, as a consequence, would "become the instrument whereby the Office of Education would indicate the secondary schools to adjust their organization and curriculum so as to meet what it considered the proper requirements for a program for the preparation of youth for wartime service."

This, he declares, "would constitute an unwarranted intrusion on the part of the Federal Government into the affairs of our American secondary schools."
