ORIGINS ARE SO SHY

By GUY H. HARRISON
Inspired by the National Geographic Association, a show that is New York City. These exhibits are appearing weekly in our columns.

When the first exhibit of the series, "The Shy Origins of the World," was shown at the New York City Museum, it was a great success. It was a great success because it was a first. It was a first because it was the first time that the shy origins of the world were shown to the public. It was a first because it was the first time that the shy origins of the world were shown to the public.
