Desserts with Small Measures of Sugar

Desserts are important in present day menus when meat servings are cut to the measure of ration points. An appealing dessert adds much nutritive value to a meal when milk, eggs, fruits and cereals are made into the esthetic pudding or "pie" that pep up family spirits and adds morale to the family dinner.

*Package Desserts are a saving of both time and sugar. Use these prepared mixes.

OUR NATIONAL PRESIDENTS MESSAGE FOR MAY

"Hail Mary"—a salutation on the lips of millions of Catholics throughout the world; a salutation full of love and pleading—love and veneration for the Mother of God who is our Mother; pleading for the safety of our boys and girls, for the restoration of the family, for a just and lasting peace.

It is fitting that our nation should set aside the first week of May as National Family Week. Right in the beginning of Mary's month we call upon her, the Queen of the Family, to restore sanctity and dignity to family life. Surely we would not dare focus our attention on the family life of our nation unless we intended to accomplish something for its betterment.

There are so many things we could accomplish in a national way if only those responsible for our laws would refrain from making hasty decisions and think measures through clearly and without prejudice before adopting them. And there are so many things we can do as individuals, if we would forget "I" and think of "We." It is selfishness that causes breaks in family life and it is selfishness that causes breaks in national life.

With this emphasis on Family Life we are going to be reminded many times of our omissions; the things we were too busy to do; the philosophy we were too modern to believe in—hence, we could not teach it to our children; the selfishness we misinterpreted as democracy, forgetting that democracy means "All of Us." We will remember all the more poignantly because today our families are

separated. Our boys and girls are carrying the Cross for us; our Christ carried His Cross for us; we must meet them in spirit on their way to Calvary and we begin to understand just a little the grief of our Blessed Mother when she met her Divine Son and in our hearts we cry out: Accept these sufferings, dear Mother of God, and help us, the women of this beloved nation, to bring Christ back into our families.

ON THE HOME FRONT

By Ruth Wyeth Speers

A MODERN TRANSFORMATION

Houses of glass are realities today and, if you want to give any house a modern air, try to make the windows seem important. One way is to frame them in a group by covering the wall and leaving

the glass exposed. A comparison of these two sketches shows that this may be done even though the windows are unevenly spaced. The cream colored walls, glass curtains and window shades are the same in both and the same two-faced green rug and the same lamp and pictures are used. The couch and cushions are also the same but the covers are new.

An inexpensive chintz with grey-green ground and a flower pattern is used for draperies and to trim the couch cover of heavier grey-green cotton material which is also used for the cushions. The glass curtains are hung on rods suspended from the picture moulding with picture wire and hooks. The side drapes are unlined but the valance is made over buckram. Both are lined to blue stripes and are hung with picture hooks. One end of the book shelves is closed in to make a head for the couch. The outside is painted grey-green, and the inside dark green. The parchment lamp shade has green bandings.

NOTE: Directions for draw curtains using wooden rings are given in SEWING Book 1 which will be mailed for 15¢ plus 10¢ to cover postage and handling. Address: Mrs. Speers, Drawer 33, Bedford Hills, New York.
