Avers World's Salvation Rests On Sincere Charity

NEW YORK (NC)—The "challenge to our age" is a charity "steeped in wisdom and insight, a love that serves, and the burning sympathy that soothes," the Rev. John J. Cronin, S.S., Director of the Institute of Catholic Social Studies at the Catholic University of America, declared Sunday evening in his broadcast on the Catholic Hour radio program.

The talk by Father Cronin's series of ten broadcasts came on the topic "Charity Gives Life."

"Pain, and there is enough pain, millions of our fellowmen will die for the want, unnecessarily," Father Cronin said, "We must not just love by. They will cry out in misery. And then I am hungry—and I am homeless—shelter me. Our answer must be the answer of Christ. Feeling for all with the world, loyally and sincerely we must shoulder the common burden. The primacy of our observance is a command to our charity. We would be unworthy of our Heavenly Father were we to fail."

Cites Other Duties

Father Cronin said contributions to community funds, the Red Cross, to local charities and similar enterprises mention that the general standard of charity today is taken for granted.

"All this is true, but it is not enough," he said. "There are other duties of charity which must overlook, not perhaps from malice, but through carelessness or ignorance. We refer particularly to the social question. For example, during the last ten years we have had as many as fifteen million unemployed. As high as four million families were on relief.

"In our cities these conditions have been appalling. Millions of our fellow citizens still live in homes which breed disease, crime, and vice. Whole families are crowded together in a single room. Children grow up without knowing the meaning of wholesome games and recreation. Even in our farmland there are regions where poverty is bitter. Many workers who roam from harvest to harvest have a harder lot than the slave conditions of yesterday. There are tenant farmers who have never had a decent meal or a real suit of clothes. This is our shame, not a story of darkest Africa or South Sea jungles."

Must Have Answer

Because of this, Father Cronin asserted, many persons become socialists and other communists because they have become embittered at needless suffering and would turn all industry over to the State. Still others, he said, take a different approach and smugly slander what they do not know by pretending that anyone who really wants to work can get a job during a depression. Father Cronin said an employer in the practical sense would be no a worker destitute or starving, but

Two 'B' Films On Legion List

Two newly released motion pictures are classified "B"—objectionable in part, by the National Legion of Decency, this week.

They are:

"Let's Face It" (Paramount)—Objection: "Suggestive lines and situations."

"West Side Kid" (Republic)—Objection: "Low moral tone. The story tends to neglect true values."

Compliments are like perfume, to be inhaled not swallowed. — Charles Clark Munn.

HELP *for* HOME CANNERS

Save that garden-fresh flavor and all the food value

—Check your canning operations— Be sure you are using 1943 methods

A PRESSURE CANNER is recommended for canning non acid vegetables and meats, as it gives a greater degree of safety. However, if none is available, the Boiling Water Bath Method may be used, provided the right directions are followed carfully.

IMPORTANT: When using vegetables and meats, steamed in the boiling water bath this winter, do not taste unless they have been boiled. Empty contents of the jar into an enameled sauce pan. Bring to the boiling point and boil actively for 10 minutes. Throw away all food having a bad odor or that looks spoiled. Do not taste.

BOILING WATER BATH

The Boiling Water Bath is preferable for canning fruits and tomatoes. They are acid foods and will can safely at boiling temperatures, and the texture, color and flavor of the finished product are better.

OVEN METHOD for CANNING FRUITS and TOMATOES

Oven Canning may be used for fruits and tomatoes. An oven which has a Heat Control that maintains a 275 degree temperature must be used. Have your oven temperature checked if you are in doubt.

NOTE: It is absolutely necessary to cook jars according to directions for the type used in order to get perfect results and no breakage.

Ask for R. C. and E. CANNING BULLETIN, or consult Home Service Specialist who is on duty every day at the CANNING CENTER, 89 East Avenue. Also available is "Wartime Canning, 1943," prepared by the Nutrition and Consumer Committees of Monroe County and Rochester War Councils.
