Avers World's Salvation Rests On Sincere Charity

NEW YORK (NC)—The "challenge to our age" is a charity "steeped in wisdom and insight, a love that cures, and the horrid sympathy that soothes," the Rev. John J. Cronin, S.S., Director of the Institute of Catholic Social Studies at the Catholic University of America, declared Sunday evening in his broadcast on the "Catholic Hour" radio program.

The topic in Father Cronin's series of the broadcasts was on the topic "Charity Above Life."

"Many and dreary are the millions of our fellowmen who will be by the roadside, wounded and distressed," Father Cronin said, "who shall not pass them by. They will cry: I am hungry—And you gave me to eat. I am homeless, shelterless—Our answer must be the answer of Christ. Nothing less can save the world. Charity and charity alone should be the common bond of men. The stirring of our differences is a command to our charity. We would be unworthy of our Heavenly Father were we to fail."

Often Other Choices

Father Cronin said celebrations by community clubs, the Red Cross, to fund charities and similar enterprises manifest that the practical standard of charity today is taken for granted.

"All this is true, but it is not enough," he said. "There are other objects of charity which must appeal, not perhaps from motives, but through conditions of ignorance. We refer particularly to the social question. For centuries, during the last two years we have had an army of fifteen million unemployed. As high as four million families were on relief.

"In our cities slum conditions have been appalling. Millions of our fellow citizens still live in homes which breed disease, crime, and vice. Whole families are crowded together in a single room. Children grow up without knowing the meaning of wholesome manner and recreation. Even in our farmland there are regions where poverty is bitter. Many workers who came from harvest to harvest have a border but than the slave conditions of yesterday. There are honest farmers who have never had a decent meal or a real suit of clothes. This is our shame, not a story of distant African or South Sea jungles."

Must Show Answer

Because of this, Father Cronin insisted, some persons become socialists and other communistic because they have become unfeeling, bored at needless suffering and would turn all industry over to the state, while others, he said, take a different approach and smugly dismiss what they do not know by maintaining that anyone who really wants to work can get a job during a depression. Father Cronin said an employer in the practical sense wants to see a worker destitute or starving, but

Two 'B' Films On Legion List

Two newly released motion pictures are classified "B"—objectionable in part, by the National Legion of Decency, this week.

They are:

"Let's Face It" (Paramount)—Objection: "Suggestive lines and situations."

"West Side Kid" (Republic)—Objection: "Lurid mural tone. The story lends to slightest true values."

Compliments are like perfume, to be inhaled not swallowed. — Charles Clark Munn.

HELP *for* HOME CANNERS

Save that garden-fresh flavor and all the food value

—Check your canning operations— Be sure you are using 1943 methods

A PRESSURE CANNER is recommended for canning non-acid vegetables and meats, as it gives a greater degree of safety. However, if none is available, the Boiling Water Bath Method may be used, provided the right directions are followed carfully.

IMPORTANT: When using vegetables and meats, canned in the boiling water bath this winter, do not taste unless they have been boiled. Empty contents of the jar into an unpainted sauce pan. Bring to the boiling point and boil vigorously for 10 minutes. Throw away all food having a bad odor or that looks spoiled. Do not taste.

BOILING WATER BATH

The Boiling Water Bath is preferable for canning fruits and tomatoes. They are acid foods and will can safely at boiling temperatures, and the texture, color and flavor of the finished product are better.

OVEN METHOD for CANNING FRUITS and TOMATOES

Oven Canning may be used for fruits and tomatoes. An oven which has a Heat Control that maintains a 275 degree temperature must be used. Have your oven temperature checked if you are in doubt.

***NOTE:** It is absolutely necessary to seal jars according to directions for the type used in order to get perfect results and no breakage.*

Ask for R. G. and E. CANNING BULLETIN, or consult Home Service Specialist who is on duty every day at the CANNING CENTER, 89 East Avenue. Also available is "Wartime Canning, 1943," prepared by the Nutrition and Consumer Committees of Monroe County and Rochester War Councils.
