## Planned Parenthood Federation Plans Invasion Of War Plant!

### Pope Decrying Cult Of Violence, Pleads For 'Worthy Peace'

VATICAN CITY (NC-Radio)—An appeal to the leaders of nations to give their people "the well-founded hope of a worthy peace" was made Wednesday by His Holiness Pope Pius XII in a radio address which marked the beginning of the 10th year of the second World War.

Speaking in Italian, with his remarks broadcast later in a number of different languages, His Holiness said men's minds everywhere are being alienated from the cult of violence. And that they are in "the horrid harvest of death and destruction its deserved condemnation." The Holy Father said "even those who then counted on speedy military achievements and on the rapid conclusion of a triumphant peace" when the war was begun now "feel only sorrow and contemplate only ruin."

#### Prays for Leaders

Pope Pius invoked "Our Divine Redeemer, from Whose lips went forth the cry, 'Blessed are the peacemakers.' To enlighten those in power and the leaders of people." "May He direct their thoughts, their sentiments, and their deliberations." His Holiness prayed, "May He give them in body and soul the vigor and strength to overcome the obstacles; the lack of trust and the dangers which lie strewn on the path of those who would prepare or achieve a just and lasting peace."

The Holy Father said he spoke "from the depths of Our sorrow-stricken heart." And he appealed to leaders "not to shatter or smother the people's yearning for peace by acts which, instead of promoting confidence, rather give new life to the fire of hate and stiffen the will to resist."

Reprints Warning

The Sovereign Pontiff recalled his warning against universal disaster which he issued before the outbreak of the present struggle. "Our words on that occasion," he said, "were inspired by impartial love for all peoples without exception, and by a vigilant anxiety to move us in this grave and troubled hour. And bring to our lips a message which is meant to be of benefit to all and hurtful to none."

His father is a poor shoe cobbler, but more important than the boots which Djugashvili scours cobble for the peasants of Gori is his famous son who will become the dictatorial boot that someday crushes the peasants of all Russia under the tyrannical heel of communism.

Soso's mother is ambitious and plios. She wishes him to become a priest of the Greek Orthodox Church, and accordingly sends him to study in the neighboring town of Tiflis. Instead of learning the clergy, however, Josef Vissarionovich Djugashvili leaves Bolshevism. He leaves the Tiflis school and joins the underground revolutionaries. This is the moment when our Russian Horatio Alger hero faces the world alone and begins his "Pride and Luck" career.

As the "Tattered Tom" of the Russian Revolutionary movement our hero leads a peripatetic life "from his eighteenth to his thirty-eighth year." As Karl Ludwig relates, Josef Vissarionovich Djugashvili is relentlessly pursued as an outlaw repeatedly banished always a fugitive from Tiflis to Batum, from Batum to Baku, from Baku to St. Petersburg. Always he is fleeing from city to city. Now he is posing as a bookbinder. Now we find our hero in cold cellar printing Bolshevik propaganda. Next he is the conspirator secretly operating in factories and coal mines.

Revolution agrees with the cobbler son from Gori. He grows in prestige and finds himself a leader in Bolshevik circles. Josef Vissarionovich Djugashvili becomes the field lieutenant of that master revolutionary, Nicola Lenin, the father of Russian Communism. From exile Lenin gives orders. In the Russian underground, the lad from Gori carries

on the torch of revolution. He becomes the field lieutenant of that master revolutionary, Nicola Lenin, the father of Russian Communism. From exile Lenin gives orders. In the Russian underground, the lad from Gori carries

### Birth Curb Group Furnishes Facts For Harper's Writer

The latest strategy of the Planned Parenthood Federation, formerly known as the Birth Control League, is to infiltrate its encyclopedic army of four to five million women war workers.

In a leading article in the September issue of Harper's Magazine, a writer signed as A. J. Merikie was admittedly given his information from the Planned Parenthood Association, claims that nearly every large plant is infiltrated by the agents of the agency, and that "pregnancy and abortion are constant topics of discussion among workers and members of management."

After reading Merikie's article in Harper's, the CATHOLIC COURIER wired Rochester's Allen F. Allen, editor of Harper's, and asked him what factual proof Merikie had for his statements. The CATHOLIC COURIER specifically asked for proof of Merikie's statement that the Planned Parenthood Federation was entering the war industries and also for proof of Merikie's claim that a group of doctors in Rochester, N. Y. had established an abortion clinic.

The Harper's editor, Mr. Allen, replied that Merikie facts had been supplied by the Planned Parenthood Association. The text of the reply from Harper's Magazine is as follows:
