

Giving the first pint of blood is the hardest—in your mind. After 15, you go back time and again.

ARE YOU AFRAID YOUR OWN VOICE SOUNDS TOO LOUD?

When you have trouble with your hearing and can't hear your own voice naturally, it's terribly hard sometimes to control it... but why go on day after day with that waxy feeling over you? Come into the Sonotone office. Have an electrographic picture made of your hearing... show you how much your hearing has slipped, and let us show you how much your hearing can be improved with a Sonotone.

FOR BETTER HEARING SEE SONOTONE

Friendship Speaks

Nothing human makes so much impression on the heart of man as the voice of friendship when it is really known to be such; for we are aware that it never speaks to us except to our advantage.
