SOCIETY ADOPTS NEW PLAN

By JOAN A. REARDON
 SENECA FALLS — From all indications, Miss Julia O'Brien, President of the St. Patrick's Guild and Alum Society, has evolved a plan which has caught the interest of a large portion of the members of the organization.

While the Society has a registered membership of over 400, there have been comparatively few active members. Monday evening Mrs. Thomas P. Devlin of the newly appointed entertainment committee, gave a book review on "The Robe" by Lloyd C. Douglas. Just as she began to speak, the black-out signal was sounded but she proceeded from memory and gave an admirable performance. There were nearly a hundred

members present and this new attraction has evidently been the reason for the sudden stepping-up in attendance.

Next month Mrs. Andrew Shios will be chairman of the entertainment committee and she, with the assistance of Mrs. John Fracer, a talented musician, will present a musicale.

Mrs. Paul Casey was chairman of the social program which followed.

Better Scratch It Out, Big Boy!

BACK in the days when the German war machine was rolling over Europe, the Reich Marshall boasted:

"If one enemy bomb should ever fall in the City of Berlin, then my name isn't Hermann Goering!"

Well, Fat Boy, they've fallen—and there are plenty more where those came from! With plenty of giant bombers to bring them—and well-trained crews to see they reach their mark!

And back of these serial armies is the productive power of iron men and women—multiplied many times by electric power—which turns the wheels that turn out all the weapons of war.

And back of this abundant electricity is the hard work of the folks who man and manage the nation's self-supporting, tax-paying light and power companies. They provide over 80% of America's power. They keep it on tap all the time—whenever and wherever needed—for war plants and civilian work.
