Certainly when our forefathers planned our Constitution, they intended that it would be interpreted for the good of every U. S. citizen. If men like Benjamin Franklin had intended to be used in our government, perhaps we would be today what the originators dreamed the century ago...

If citizens who admit the lack of some judgment in the governmental system as it now stands would only plan to include a more intensive study of government, as well as other overlooked essentials, in their programs, perhaps there would be some hope for the future...
