Answers Laski
On Capitalism

Cambridge, Mass. - (INS) -
 Joseph F. Kennedy, former am-
 bassador to Great Britain, scoffs
 at claims by Prof. Harold Laski,
 British Labor Party leader, that
 capitalism is dead in the United
 States.
 "Professor Laski is going all
 over Europe telling people that
 capitalism is dead in the United
 States," Kennedy charged in a
 speech Saturday before the Vi-
 ctory Convention of the Massa-
 chusetts Federation of Labor in
 Cambridge.
 "It isn't so dead. It saved the
 British Empire twice in the past
 25 years," he declared as the
 delegates cheered loudly.
 He warned the labor leaders
 that Communism and Socialism
 "are not cure-alls for our na-
 tion's problems."
