Truman Asks Bill of Rights For Family

Washington — (NC) — "The measure of a civilization is the measure of its family life," President Harry S. Truman reminded in a message to the fourteenth annual convention of the (National) Catholic Conference on Family Life...

An array of notable speakers, with topics on all phases of family life, was scheduled to address the four-day sessions. The Conference is sponsored by the Family Life Bureau of the National Catholic Welfare Conference.

"I have noted with keen interest," President Truman's message stated, "the sessions on family life to be held at the Catholic University of America under the joint auspices of the Family Life Bureau, National Catholic Welfare Conference and the National Catholic Conference on Family Life."

"The deliberations which your program calls for are timely. Indeed, it would seem inconceivable that, as we put our hands and our hearts to the giant task of building anew at this turning point in history, we should fail to center a great share of our attention and effort upon the family unit."

"Perhaps we were well if we in America, who have in the past fought so well for a bill of rights for the individual, would in the future fight no less valiantly for a bill of rights for the family."

Among the speakers at the first day's proceedings were Mrs. Patrick J. McCormick, member of the Catholic University, who gave the address of welcome; the Rev. Dr. Edgar Schneider, C.S.B., Director of the Family Life Bureau, N.C.W.C.; Mrs. Francis J. Rooney, of Mundelein College, Chicago; the Rev. James A. Magner, procurator of the Catholic University; the Very Rev. Thomas Vener Moore, D.D., head of the department of psychology and psychiatry at the university; Sister Helen M. McDonough, S.M., of St. Joseph's College, West Hartford, Conn.; the Rev. Thomas J. Murphy, of Burlington, O.; Joseph Glavin, Minister of National Health and Welfare of (Rochester, N.Y.); and Harry Reid, parliamentary law expert of the Congress of Industrial Organizations, who read a message from CIO President Philip Murray.
