of the unanimity rule, when actually unanimity — which usually means Russian approval — is not needed in these cases. The Russians, these observers say, frequently go ahead with a course of action they want to pursue, and ask approval afterwards. If the Americans would not independently and vigorously in these matters that do not require unanimity, it is said, they would soon have the British and French following their lead and the Russians eventually being the same.

Once again it will be the world's grapes in search of a thing called peace.

As Members of the International Security Council, United Nations, to the writer of diplomats and accreditations, it is all fouled up in the actions of the Council.

Despite its efforts, it seems that the Security Council has failed to preserve international security and the peace of the world. It is all fouled up in the actions of the Council.

These hopes were er or about the security of France placed on the part of the Security Council for United Nations against France, made by Oscar Lange of the Moscow group, member of Poland, and at Hunter College. He is aware that the game behind the Polish in Spain is Soviet Russia.

In the name of Poland Mr. Lange of the United Nations break off diplomatic relations with Spain.

Why? What is against Spain? Changes that France danger to world peace that Franco war of aggression. Leaves Mr. Lange's belief in Mr. Lange's position to anybody. Incidental Spain is one of the nations involved in World War II.

Delegato Lange and rather vaguely the present time in man scientists are atomic energy projects would secure.

The Polish delegation that negotiates danger to world peace in a few other countries. He did not not in the laboratories there are scientists, few Germans, too, led in atomic research.

Mr. Lange is not willing to deal with secrets in both Canada and United States.

Why is Mr. Lange alleged dangers from yet blind to real aggression. Over every today's world falls of Russia but the real to root out three sees only General Franco.

The United States Britain have taken a real attitude to Mr. Lange charges against Spain aggression and atom the Anglo-American at Hunter College to examine the evidence. Mr. Lange and his ers have not produced to support the ions against Franco.

The United States policy, holds that France removed by the people themselves and removal should be peaceful. A wise and prudent there are strong work to change this.

Supporting Mr. mands on the Security Council was the S. of Sidney Hillman's CIO Political Action. In its new program ed by Washington the PAC called on the tions Security Council to quarantine Argentina of Fascist infection set the people of Argentina to restore rights and self-governance.

Like Mr. Lange, S man's CIO PAC is the infections of Russia which fester in Europe. Return to Trieste. W PAC say nothing about "democratic right government" to the nations behind Mr. CIO.

The CIO is a bona fide labor organization. Mr. Hillman and the going to support the policies of Soviet then honest citizens forced to suspect the ism of the CIO.
