### 'Shoe Shine' Waits Home at Last

American GI who served in Italy will remember the homeless waifs of Rome, in whom they gave the name of "shoe shine boys." These youths, most of them orphaned by the war, roamed the streets of the Eternal City, filthy and ragged, sleeping in alleys, eating as best they could in a hungry country.

The boys, between the ages of 6 and 17, are safe now in the "Sole Sole" Hotel—a Mediterranean style of American's famous boys' town.

### HUNGARY GIVEN FOOD AFTER DELAY

New York—(NC)—Well over one million pounds of foodstuffs consigned to Hungary by War Relief Services—National Catholic Welfare Conference—have arrived safely in Budapest after a delay of several weeks which had caused concern in this country as well as in Hungary.

Together with the news of the arrival of this relief shipment, War Relief Services—N.C.W.C.—announced that another shipment totaling 500,500 pounds, which left this country on the S.S. Madaket on June 7, has arrived in Antwerp, Belgium, and is now being unloaded for train shipment to Hungary.

The document, which sets up diocesan branches of a Catholic social action, points out that if social reform is to come about through "laws, regulations and practical means" established in actuality, the public welfare, it is clear that Catholics should prepare themselves for such processes.

The Cardinal said he believed that "all informed patriotic Americans take courage from their confidence in the integrity and competency of our LAW Enforcement agencies under the leadership of the Federal Bureau of Investigation."
