

COURIER JOURNAL

Dr. Gillis Says:

Oh, I'm So Glad You Like the Cake, Father, It's not the Devil's Food!

Yardstick The Problem

THE CATHOLIC COURIER JOURNAL... OFFICIAL NEWSPAPER OF THE ROCKAWAY DISTRICT... THURSDAY, AUGUST 3, 1944

Oh, He A Sport... It is a rule of sportsmanship not to kick a man when he is down. Even in prizefighting, which is not a sport but a brutal business, that rule is observed.

Several weeks ago there were some passing comments in this column on Chester Bowles' new book, 'Tomorrow Without Fear.' Far more important problem of organized economic cooperation outside of government agencies...

Feast of the Assumption... That we have not have a losing city, but that we seek one that is above, is emphasized for all of us by the approaching Feast of the Assumption.

As it happens, I am a friend of the two patriotic gentlemen who generated with the Herald Tribune's jabber-jabber to suppose I would be in the mind of that writer, a crackpot-bigot-serious-serious figure.

As We See It By Dan Patrick

Did Catholics who witnessed 'The Green Years' at Loew's Rochester violate their Legion of Decency pledge? The answer is an unqualified 'No.'

Specifically it was pointed out that Mr. Bowles says very little in his book about the far more important problem of organized economic cooperation outside of government agencies.

Why Mary, the day of the general resurrection was anticipated. Her holy body was not in vain corruption in an earthly grave. To her immaculate soul it was to be reunited very shortly after death and God's wondrous Angels were to hear it up immediately before the Throne of Grace there to be welcomed by St. Peter, St. Paul, and St. John.

Not only 40 million common people, but the two candidates for the Presidency in 1940 were isolationists and so they remained until 1941. Things happened so rapidly after Pearl Harbor that the memories of men are so short that it may be well to recall a few statements made by Franklin D. Roosevelt and Wendell Willkie in the 1940 campaign.

A Bow to New Zealand By TOM ROGERS

Washington — This is not an exclusive story in its sense that it belongs to one inquiring reporter. But it does belong to the American people and the big trouble is that only a few people are interested in bringing that story to the attention of the American people.

There is reason to believe that Mr. Davenport is reflecting the attitude of the public. Millions of Fortune (and many of its subscribers) when he advances the following argument in criticism of Bowles' recommendation.

America's God Child... The newly created country of the Philippines Islands will always remain closely connected with the United States. The hopes of many years are realized in the setting up of the new republic.

Three years later, in 1937, he was still preaching 'American neutrality,' American security, American peace. After being told destroyers to Britain, he explained to Congress that its purpose was to keep us out of war.

Outside the Law

Washington — The lives and liberties of non-Federal citizens when forces of terror operate within the laws of God and man? Attorney General E. A. Tamm emphasized in a statement regarding the progress of the federal investigation which he received following the hijacking of some Negroes at Monroeville, Ga.

Whether he actually means what he seems to say, with all its implications, is of course a matter of question. But the fact of the matter is that he is explicitly recommending the present kind of economic individualism.

Religion United for Peace... Peace that will herald and leading must have the united support of religions must throughout the world. There is no reason why the power of religion should not be felt in this preparation of peace treaties to bring in an early end this state of war between the nations.

As these presentations President Roosevelt polled 27 million votes and Mr. Willkie 22 million. The greater and larger part of the population as well as the two most prominent leaders were isolationists.

For Thy Peace!

Christ went over Jerusalem and its people. Both were dear to Him. Jerusalem was the great city of His fathers, of David and the Prophets. It was the city of peace, according to the name given it of old. Its people were of His own race. They were the chosen people of God in His providence.

Particularly distressing is Mr. Davenport's attempt to equate democracy with classical economic individualism. Let it be said very briefly in reply that in the essence of democracy is economic individualism, there isn't a nation in the world today that can claim to be a democracy, nor is there likely to be one in the foreseeable future.

Mark Never Guessed... Pope Leo XIII was a 170 page significant philosopher than Karl Marx ever was. The Pope was wise enough to know that it is impossible to reduce human beings to one level.

Mr. Clark takes exception that his department has received hundreds of telegrams and letters from public-spirited citizens and clergy, labor and veterans organizations from all parts of the country pleading and protesting the Georgia mass murder.

A Blot on History?

The London Catholic Times has described the atom bomb test at Bikini as a blot on human history — a shameful disgrace, saying:

Today the madness of the world is summed up in the word Bikini. With scientific aid open and while nations threatened with famine, all eyes were directed to that island in the Pacific marked out for destruction in the cause of modern scientific destruction.

Crack for Sports Has Advantages... Notre Dame, Ind. (INS) — Competitive sports help to keep Americans busy at the right times in the right places.

So says an editorial in the current issue of 'Ave Maria' national Catholic weekly magazine published by the University of Notre Dame.

So says an editorial in the current issue of 'Ave Maria' national Catholic weekly magazine published by the University of Notre Dame.

Crack for Sports Has Advantages... Spouting a vigorous defense for sports, the editorial editor keeps America busy from its worries. It makes Americans forget for a while Communism, National Socialism and Post-War problems.

As far as we know, Loew's Rochester is the only theater in the entire Rochester Diocese which has had the bad taste to offer 'The Outlaw'.

Spouting a vigorous defense for sports, the editorial editor keeps America busy from its worries. It makes Americans forget for a while Communism, National Socialism and Post-War problems.
