Sodality of Our Lady Annual Triduum

History will undoubtedly portray our Holy Father, Pope Pius XII, as one of the most outstanding successors to the throne of Peter. He will be looked upon as a truly great churchman, a statesman of extraordinary ability, and the Supreme Pontiff upon whose shoulders fell all the horror and tragedies of World War II.

Official position, he enjoyed a perspective given to few men for observing and judging the works of the Sodality. In 1939, the first year of his pontificate, the Holy Father cited the Sodality in his encyclical on the Progress and Problems of the American Church as an association of the laity which had won for itself laurels of undying glory.

Text of Diocesan NCCW Resolutions

Here is the complete text of the resolutions adopted today at the annual convention of the Rochester Diocesan Council, National Council of Catholic Women:

I - Catholic Societies Bearing in mind the need and importance of Catholic Societies and realizing the splendid work they have done in the past, we urge our Catholic women to affiliate with Catholic organizations, parochial or inter-parochial, and to participate actively in the work of the Catholic lay apostolate.

II - Retreats Realizing that retreats and days of recollection are most important factors in developing personal sanctification so essential to real Catholic Action, we pledge ourselves to cooperate in a wider extension of this movement.

III - International Relations We call on Catholic women more generally to become familiar with the basic principles of peace as laid down by our Holy Father, Pope Pius XII, and with the problems of peace and the organizations designed to meet these problems. We urge them, furthermore, to make their voices heard and their power felt as citizens, members and leaders of civic organizations and public bodies, to have the principles of justice and charity operate in all international relations.

the development of normal family life, and aware of the great housing shortage there is today, we recommend the adoption of a long-range housing program which will encourage the building of rental housing and of homes at prices the average American can afford to pay.
