Father Gellis Says:

These are two opinions about the strategy of the Church... Catholics of the conservative sort believe that we should not be the aggressor, but should retire behind our ramparts and await the assault...

Catholics of more aggressive type prefer the go-out-and-meet-them strategy... They don't like the idea of being sniped at behind walls, ramparts, battlements... call the defense what you will...

They seem to have been the idea of the crusaders. They didn't wait for the Saracens to overrun Christendom. They went all the way across Europe to meet the infidels where they lived...

Today it is the Catholics of the latter type who are being sniped at from behind their own ramparts...

The Crusades Again: With a Difference

So have taken the play away from us. We have jumped the ball; the athletes have recovered it, and they are on their way toward our goal... They have gained a great deal of ground, in fact they have complete possession...

I have said there are two opinions about the best means to use... Some Catholics, by the means of the cautious, conservative, wait-and-see type, are telling us that we no longer have a choice...

One word more. Could it be that the strategy of the crusades is being revived... We have seen the crusades of the past... We have seen the crusades of the present...

The Yardsstick

There was a time, just a few years ago, when the name of Belloc was a household word among the Catholics of the English-speaking world...

But if the voice of Belloc has been silenced by the ravages of age and its accompanying infirmities, the popularity of some of his earlier and more important writings is unexpectedly being revived...

All this is by way of wondering what Belloc is thinking about today. He hasn't been heard from... In fact, his name has scarcely been mentioned since the early days of the recent war...

Belloc has this much in common with Hayek... that he was a product of a generation that lived in a time of great optimism...

A Revival Of Belloc

It may be suggested, in passing, that neither Belloc nor Hayek has spoken the last word on the politics of the so-called "welfare state."

It may be suggested, in passing, that neither Belloc nor Hayek has spoken the last word on the politics of the so-called "welfare state." Their fears and misgivings about the trend towards governmental intervention...

Nevertheless, Belloc did make a contribution, which while it parallels in some respects the pessimistic analysis of Hayek, was considerably more radical and profound...

Belloc has this much in common with Hayek... that he was a product of a generation that lived in a time of great optimism...

All Out for America

President Truman has asked for full cooperation from Congress and in turn has promised to work with the new Congress... Republican leaders in both houses have replied in the terms that they will cooperate...

For Industrial Peace

Sound and labor must cooperate if we are to have industrial peace... Such have prepared by collective bargaining in the form both of proper through collective bargaining...

For the Rights of the Employer

Employment leaders may try to send the contrary back like common sense... But they can do no more of securing of sound production of the employer without giving him a reasonable share of profit...

For the Rights of Workers

Employment leaders may try to send the contrary back like common sense... But they can do no more of securing of sound production of the employer without giving him a reasonable share of profit...

AS WE SEE IT

Again, Mr. Murray

By DAN PATRICK

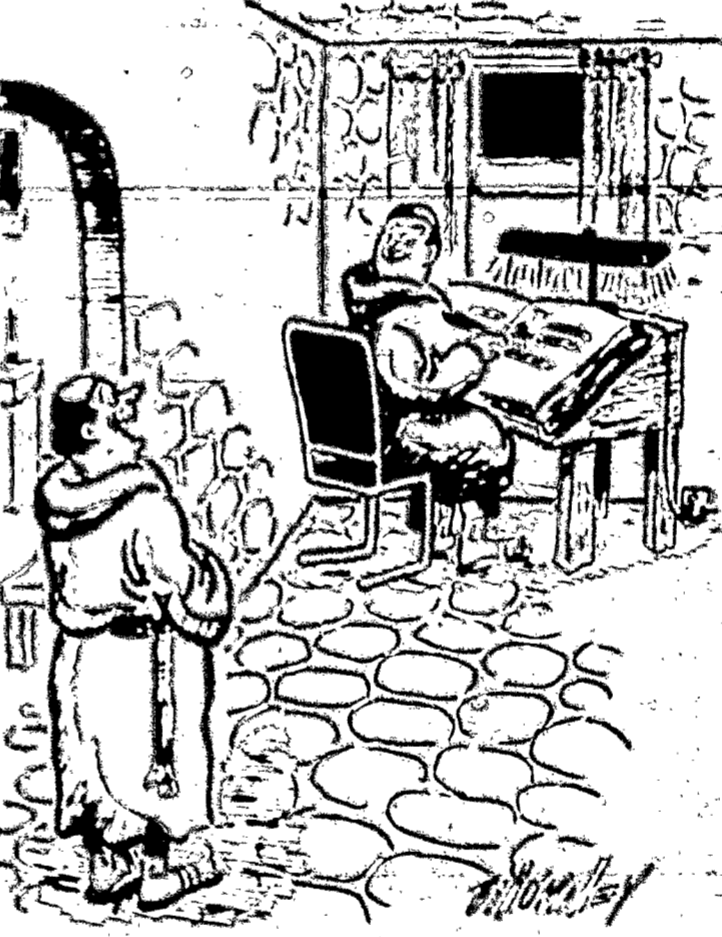

Chastened by the election results which left the great net loss in the Catholic vote... Mr. Murray has been a most successful politician...

Now the CIO president has been elected... Murray must follow a path of compromise at all costs... He cannot afford to lose the Catholic vote...

Mr. Murray's ally, the CIO, has been a most successful politician... He cannot afford to lose the Catholic vote... He must follow a path of compromise...

There already is much talk and writing about the election... It is almost as if a great battle were being fought... The election is a battle...

One of them has written that if continuation of Mr. Murray means continuation of 'oppression' toward Communists... The labor movement and the nation in the long run...

Election's Pitfalls

By J. GILBERT

Washington—The next decade may well be the most critical in the history of the United States... With the world wondering between war and peace...

This election is a battle for the soul of the nation... It is almost as if a great battle were being fought... The election is a battle...

One of them has written that if continuation of Mr. Murray means continuation of 'oppression' toward Communists... The labor movement and the nation in the long run...

Heinous Political Crime

By TOM ROGERS

Washington—We are waiting for the news from New York... The crime was within modern political crime...

From the apartment above... He had been unconscious for approximately one week... He was beaten...

Washington—The next decade may well be the most critical in the history of the United States... With the world wondering between war and peace...

This election is a battle for the soul of the nation... It is almost as if a great battle were being fought... The election is a battle...

She Will Return to Life

Great was the faith of the ruler whose daughter had just died. He did not pause to make any of the arrangements usual for a funeral... He believed in the power of Christ to restore her to life...
