U. S., Britain Aided Greatest Land Grab' Avers Father Gillis

By MARY CAREY

United States and Great Britain were indicted as "partners in the sin of the greatest crime of land grabbing in history of the human race," by the Rev. James M. Gillis, former representative of the American Legion.

The United Nations World aid for around the free powers of communism was based on the imperialistic intent of the Soviet Union which now controls one-half of the land surface of the globe.

Democracy, American Policy
Serves the Allies, Father Gillis
Tells the Assembly, The U. S. and
Russia will live in peace if
they both become a member of
the United Nations.
