olic industrialists and pusiness

theory of a living wage as well
as does General Johnson, who
is not a Catholic. It is continuous mystery that Carolics
frequently are the last or a to old country, many people enjoy seeing old screen favorites over a steady diet of them. If there is any ettempt to pass off old films as new ones-and there have been many such attempts of recent years there will be wide public catch up with the Catallic Church

films will kill eff public theater General Johnson is not radical. He is a staunch ! Hever in the American system of private enterprise. He ha fault to find with the New Deal and is opposed to any increase

of government bureaucracy. He does not subscribe to the wasted, and prodigious gambling barbaric spirit of those who tell us to hold back because a depression will be along in has created a grave mational hasa few months and then everyard. "We must get the system of the acreen, movies reflecting the private enterprise going, and comforts and advantages of Amerget it going now. If we don't, ican life under capitalistic enterwe shall have some other system forced upon us-not by Others, equally ill - informed, revoluntionaries from Europe have suggested that the British! but by popular demand," warns government interprets its new tax

> The General's book has criticism to make of American Labor as well as American Business He is equally aware of the labor racketeer and the reactionary business leader. But here is his mind on orkanized labor.

"Since unions are here to sta), and since they can be made to function well, it behooves management to find ways of successfully working with them."

The General is ready to be patient with the aberrations of some labor leaders and expresses the confident belief that "once union leaders find employers willing to follow the rules of the game; they will be more willing to cooperate" He supports this belief with the sta ment that "cooperation has been the outstanding feature in every industry which has recognized the facts of union life and acted upon them."

Some of General Johnson's suggestions may not find acceptance either in the ranks business or labor. Some of his statements may start dehate. But by and large, General Johnson's book is on the

side of the angels' Papal social teaching so easily available to all Catholics a question comes to trouble us Why doesn't some Catholic industrialist write a book like General Johnson's!
