Tech School Exams Slated

The classification examinations for Edison Technical and Industrial High School will be given on Saturday morning, April 24 at 9 o'clock. These examinations with other information obtained from the school that the pupil is now attending, make it possible for the school to do a better job in helping the boy select the line of work which he thinks will interest him in the future.

Edison Technical and Industrial High School is an accredited school under the rating given them by the Association of Colleges and Secondary Schools of the Middle States and Maryland, according to Howard S. Bennett, principal.

Pupils receive the same mandated instruction in English, Social Studies, Physical Education and Health as pupils in any other high school.

They have the same opportunity to take part in Music, Dramatics, science, drawing, art and design. They receive a broad and thorough trade or technical preparation for entrance into the occupation of their choice, or to continue their education at technical schools or colleges.

Upon graduation the school assists them in securing their first job and continues to assist them until their career is well under way.

The Open House and Education

By Ernest W. Veigel, Jr., President
Rochester Business Institute
Rochester, N. Y.

For the 14th consecutive year, R.B.I. joins with the great schools of the country in setting aside a week during which the general public is welcome. This Open House idea is an educational institution makes it possible for anyone in the community to come to the school, look around, ask questions and find out what is going on. Why not the school? For the individual in the way of proper training, for the citizen, general education and personal improvement? Open House is "America's" way of keeping the best of experience and learning to the attention of the citizen both young and old. R.B.I. stands as a champion of equal opportunity for every boy and girl irrespective of race, color or creed.

The week of April 19 to April 24 has been set aside as Open House Week at the Rochester Business Institute. On Friday, April 23 and on Saturday, April 24, the high school seniors of hundreds of schools in the area will be our guests. Parents, teachers and student advisors will also be in attendance to see the school and get acquainted. Many exhibits pertaining to business will be shown and each senior will have the opportunity of talking with R.B.I.'s faculty and staff concerning business careers.

To me, the term "Open House" means an open door, a hearty welcome and fine companionship. You will find all of these when you attend R.B.I.'s Open House.
