Hungary School Grab Scored

(Continued from Page 1)
clared that, in return, the State has certain rights of control in schools not operated by the State. However, "the State has no right to deprive parents of their rights by suppressing schools under their control" and by inflicting "on the children of religious parents an indifferent or materialistic philosophy," the statement added.

In a letter addressed to Julius Ortutay, Hungarian Minister of Education, before the opening of the debate in parliament, Cardinal Mindszenty deplored the haste with which the nationalization bill was introduced.

"Even before this debate," the Cardinal wrote, "our schools and their property have been sequestered, our schools are overrun by police officials who treat the rightful owners in a manner... customary against thieves or those ready to commit theft.

SUCH TREATMENT is injurious, offensive and deeply humiliating. All this is going on against a Church that, during the centuries, has made so many sacrifices in the interest of the culture of the nation. This whole procedure is not the fulfillment of our conditions (for negotiations on the school issue) but constitutes the most reaching and rigid rejection of these conditions."

Cardinal Mindszenty, expressing the decision of the Hungarian Bishops, repeated that suspension of the school nationalization measure was the only basis on which the Church would be prepared to enter into any negotiations with the government. A few hours after the Hungarian Courier had published the text of the letter, parliament voted, 230 to 63, for nationalization of schools.

60 'Boys Town' Lads Selected

Montreal—(NO)—Sixty boys who have appeared in Juvenile Court here have been picked by the Rev. Albert Roger, C.S.S., founder of Quebec's "Boys Town" at Beauville near Joliette, to attend a summer camp at Beauville.

Father Roger, like the late Father Flanagan, believes that at heart there are no really bad boys. His experience has been that the outing given to delinquent boys by him each summer has been the start of a new life for most of them, and that there have been few if any lapses by the boys.

The priest, who has visited Boys Town and other youth rehabilitation centers in the United States, has started to set up an apprentice and trade school on a 270-acre farm at Riviere des Prairies. In this project, he has had the assistance of the Chambers of Commerce and the Government of Quebec.

Discussion Set On Church-State

Chicago (NC)—Problems of Church and State and industrial relations in a democracy occupy the attention of the Catholic Theological Society of America at its third annual convention here, June 28 to 30. It has been announced. More than 150 theologians are expected to attend.

The Rev. John Courtney Murray, S.J., of Woodstock College, Md., editor of Theological Studies, will discuss "The Problem of the Church and State" Dr. Godfrey Schmidt, professor of labor law at Fordham University, and the Rev. George G. Higgins, assistant director of the Social Action Department, National Catholic Welfare Conference, will collaborate in a treatment of industrial problems.

Unique Service 12 Workers Keep Vatican Post Office Busy Daily

By REV. JOSEPH J. SULLIVAN
Vatican City—(By Mail)—Three deliveries a day is the routine for letter carriers of Vatican City, and the carrier staff consists of two men. They are the kind, helpful, dependable friends who fill the world knows in its postmen. Three times a day they make their rounds with very valuable and very ordinary mail for the offices and residents of the smallest sovereign state in the world.

Although their trips do not require more than an hour each, their task of delivering mail is more arduous than might appear, considering the hilly character of Vatican State and the endless stairways.

Surely the men who built these magnificent staircases had in mind much more than merely a way to go up and down. There are elevators of course, but not at all points or at times when they might be needed, so the carriers often use the stairs. That would not be too bad in itself, but Vatican City is
