

A Look at Labor Unions Here and There

By A. C. Tuohy

Telephone workers throughout the country showed good sense this month in affiliating with the C.I.O. In a nationwide referendum begun March 7th, the Communication Workers of America by a vote of two to one decided to abandon their independent status.

A CIO charter was issued to them on May 9th. Henceforth, more than 300,000 telephone workers will be covered by CIO contracts. Another 300,000 telephone workers remain unorganized.

The main advantage of the CIO affiliation is that it will give telephone workers an organization that will be a match, at least in part, for the American Telephone and Telegraph Company. The CIO has the prestige, money, and resources which will enhance the bargaining position of telephone workers during negotiations. Telephone workers were the last vanguard of independent unionism in large industry.

SAMUEL LEMKIN, chairman of Local 442, International Brotherhood of Painters, Decorators and Paperhangers of America, A.F.L., was recently indicted on a charge of conspiring to defraud the City of New York out of \$91,000.

The company, of which he was 40 per cent owner, used cheap paint on city hospital wards and used only one coat instead of the legally required two coats.

Lemkin violated union rules by being a management representative at the time of serving as a union official.

Trade unionism has gone beyond the stage where national labor federations can keep one eye closed to graft, corruption, and vice, among affiliated unions on the ground that such affiliated unions are "sovereign" and "independent."

THE STORY on the strike at the Ford Motor Plant thus far makes little sense. Apparently, 55,000 workers walked off their jobs because of a company

"speed-up." No one, except workers in the automobile industry, can really understand the terrible meaning of the word "speed-up." The pre-union speed-ups in Detroit were no credit to American capitalism.

Yet in view of the fact that contract negotiations were scheduled for May 16, it seems inopportune for the Ford workers to go on strike over this single issue. At first, the international executive board refused to sanction the present strike, and only when the Ford local 600 expressed its determination to go ahead with the strike without international approval, did Walter Reuther approve the strike.

THE MOST difficult section of the new labor bill will be that part dealing with emergency strikes, i.e. strikes which will paralyze whole industries or impair health or public safety. The principle is clear: the government has the right to restrict the exercise of the right to strike in the interest of the common good. No one disputes that.

Differences of opinion, however, do arise when people begin to make a practical judgment on the subject. How should the right to strike be restricted in these cases? The solutions offered by employers involve various degrees of compulsion on workers and on workers alone.

These solutions underestimate the importance of the right to strike to free workers, ignore the part that employers play in the negotiations that precede strikes, call for government interference which these employers would violently reject were property rights involved. By all means let us minimize the harmful nature of emergency strikes, but let the penalties fall on both sides alone, not merely the workers.

Balancing The Books

By REV. JOHN S. KENNEDY

Lately no issue of a popular magazine is complete without an article on sex and marriage. Books on the subject are intensively advertised. These articles and books are represented as "frank," "scientific," and "exhaustive."

Actually almost all of them are in large measure erroneous — either because they are concerned with the physical, psychological, and the civilly legal to the exclusion of the spiritual and the moral, or because much of what they present as factual and scientific is highly questionable.

It is not enough for us to warn people away from such a deficient treatment of a matter of universal interest and importance. We should have something positive to recommend in their stead.

Among older publications one might mention Forster's "Marriage and the Sex Problem," Wayne's "Morals and Marriage," Hope's "Life Together," and Wagner's "The Art of Happy Marriage."

Among the newer are Two in One Flesh by E. C. Messenger and Cana Is Forever by Charles Hugo Doyle.

FATHER MESSENGER'S Two in One Flesh is a monumental work published in three volumes. But Volume One runs to only 61 pages, and Volume Three to only 71 pages.

It is no mean merit in Father Messenger's work that, while scholarly, it is simple in presentation; while candid and direct, it invests the subject with dignity and beauty; while taking cognizance of recent discoveries and speculation, it impressively brings out the sanity and force of the traditional Christian teaching.

Only last week, in reviewing Paul Blanshard's American Freedom and Catholic Power, we had occasion to deny yet another repetition of the canard that the

Church holds sex to be intrinsically evil.

It is this false notion with which Father Messenger comes to grips at the outset of his book. In characteristic fashion, he traces down the idea, cites and sifts the evidence which might seem to support it and then assembles a wealth of evidence in refutation of it.

The whole first volume is a marshalling of proofs from Scripture, Catholic tradition, the Fathers, the theologians, philosophy, and sciences — all serving "to dispel prejudices and to clarify the mind" and evidencing the truth "that sex is a divine institution and its rightful exercise in marriage cannot be otherwise than good."

SEX AND MARRIAGE cannot be intelligently considered or correctly understood apart from the full nature of man (not merely the physical) his destiny, and the history of the race. It is the fatal weakness of the articles and books alluded to above that they attempt to treat their subject out of context.

As a corrective to their fragmentary and fallacious approach, there is the second volume of the Messenger work. Subtitled "The Mystery of Sex and Marriage," it is theological and historical in character, studying the origin of humankind and the crucial questions of human nature and destiny, the fall of man and its consequences, and the morality of sex and marriage in the light of these and as found in subsequent ages down to the present.

The final volume is largely given over to practical suggestions. Her to practical suggestions. He discusses choice of a state in life, choice of a spouse, the marriage ceremony, marital practice, the bearing and rearing of children, family life, and sex instruction for children.

AS THE TITLE suggests, Father Doyle ties up his whole treatment of marriage with the wedding feast and miracle at Cana. From that brief section of the Gospel he extracts a treasure of truth which does no violence to the original. Every chapter is linked to a different facet of what was said and done

Sacrament And Career

Fr. Kennedy

at Cana, and the effect is to emphasize in an acute way the sacramental character of matrimony.

Father Doyle begins by showing that marriage is a career — indeed, the career adopted by the first two humans beings. "Every successful career," he says, "demands adequate preparation, intelligent earnestness, persistent industry, and the will to win, but marriage demands all these, plus the exalted strength of love."

What one brings to marriage is determined by the course of one's life and the development of one's character from infancy, hence preparation for it begins years before marriage is contemplated. Then comes proximate preparation, into which the author goes carefully and extensively.

The nature of marriage is next explained, the tone being set by the title of the chapter, "The Great Sacrament."

The remainder of the book — six lengthy chapters — is devoted to counsel calculated to help in making marriage happy or in salvaging damaged unions.

The theory so exactly stated by Father Messenger underlies and informs Father Doyle's uncommonly readable and useful book. Cana Is Forever is notable for its combination of correctness of doctrine, fluency of style, and effortless intelligibility.

Simultaneously it declares the full glory of marriage and points out the homely pitfalls, doing the first without being rhapsodic and the second without being vulgar.

TWO IN ONE FLESH by E. C. Messenger, 368 pages. The Newman Press, Volume I, \$2.00; Volume II, \$3.50; Volume III, \$2.00.

CANA IS FOREVER by Charles Hugo Doyle, (266 pages). The Nugent Press, \$3.00.

Book On Rosary Put in Setting Of Holy Family

Chicago — (Special) — A helpful handbook of devotion to the Rosary of Our Lady is the fruit of seven years of research by a Chicago priest, Rev. Maurice E. Kennedy, whose "The Complete Rosary" has just been published here with the approval of Samuel Cardinal Stritch, author of its foreword.

In setting down his thoughts, Fr. Kennedy has had in mind the great numbers of sincere Catholics who find it difficult to approach their private devotions in terms of practical everyday existence.

IT IS IN such terms that this book is written—the reader lives with the Holy Family, as it were, shares their problems and thoughts, and is guided by the author into self-examination of the most helpful kind.

In his analysis of each Mystery, Fr. Kennedy has combined narrative, interpretation, and sound Catholic philosophy to make a series of warm and understandable sermons apply to people in every walk of life.

Apparent throughout is the author's wide experience in dealing with human frailty and frustration. Both as a parish priest and as a delegate-judge to the Matrimonial Court of the Archdiocese of Chicago, he has heard, evaluated, and helped to solve the troubles of many whose basic needs were guidance and encouragement.

Writers Gather At Literary Meet

Chicago — (NC) — The Thomas More Association formerly known as the Thomas More Library and Book Shop, is celebrating its 10th anniversary and the opening of its new quarters here this week with a series of lectures by outstanding Catholic authors and an exhibit of Catholic art from May 14 to 21. The association was founded in 1939 as a non-profit institution to promote Catholic books.

Among those who will attend the celebration are the Rev. James Keller, M.M., founder of The Christophers and author of "You Can Change The World," the Rev. Harold C. Gardner, S.J., literary editor of America, national Catholic weekly; the Rev. John A. O'Brien, philosophy professor at the University of Notre Dame and author of "Courtship and Marriage."

Katherine Burton whose autobiography "The Next Thing" will be published May 18, will speak as well as Anton Regis, editor of the forthcoming "Wisdom of Catholicism," Gretta Palmer, co-author of "God's Underground," and the Rev. Gerald T. Brennan of Rochester, popular writer for Catholic children.

First Student

William Gaston, one of the most Southern Catholics of the era, between the American Revolution and the Civil War, Georgetown University law student, who is subject of a new biography called "William Gaston, Carolina," by J. Herman Scholesinger. Mr. Gaston represented North Carolina in the U. S. Senate and in the State Legislature, and later became a Supreme Court judge of his state. Friend of Bishop John England, he was a staunch apologist for the Faith and a defender of religious freedom.

Books Given N. D.

Notre Dame, Ind. — (NC) — Twenty-two large volumes of rare Latin texts have been presented to the Mediaeval Institute at the University of Notre Dame by the St. Stephen Academy of Budapest, Hungary, it has been announced.

Women Check 3,000 Stores In Chicago Decency Drive

Chicago — (NC) — A third survey of retailers of comic books, pocket-size novels and other periodicals aimed at young people is being undertaken here by the Chicago Archdiocesan Council of Catholic Women as part of a decency drive begun last fall.

More than 1,000 outlets were visited by the women in the second survey.

PROCEDURE IN THE survey is to solicit the cooperation of the retailers by asking them to return to distributors all comic books, magazines and pocket size books violating a six-point code set up by the Council.

The plan of the crusade calls for continual vigilance with further surveys scheduled for this summer. Committees are alerted to the flood of digest-size novels reaching certain quarters and to under-the-counter and back-of-the-store sales.

The indecency lists now include 48 comic books, 105 pocket-size books and 112 magazines, which have been deemed objectionable reading for youth by the reviewing committee.

The Chicago A.C.W. Code for determining indecency is as follows: Publications are labelled "objectionable" which contain — (1) depictions of sex, (2) depictions of violence, (3) depictions of crime, (4) depictions of immorality, (5) depictions of superstition, (6) depictions of magic, (7) depictions of witchcraft, (8) depictions of sorcery, (9) depictions of necromancy, (10) depictions of astrology, (11) depictions of fortune-telling, (12) depictions of divination, (13) depictions of clairvoyance, (14) depictions of telepathy, (15) depictions of telekinesis, (16) depictions of psychokinesis, (17) depictions of psychometry, (18) depictions of spiritism, (19) depictions of mediumship, (20) depictions of channeling, (21) depictions of automatic writing, (22) depictions of automatic drawing, (23) depictions of automatic typing, (24) depictions of automatic telegraphy, (25) depictions of automatic telephony, (26) depictions of automatic telegraphy, (27) depictions of automatic telephony, (28) depictions of automatic telegraphy, (29) depictions of automatic telephony, (30) depictions of automatic telegraphy, (31) depictions of automatic telephony, (32) depictions of automatic telegraphy,
